## ONTARIO LEGISLATURE.

FRIDAY, Jan. 27.

Three government bills were introduced and read a first time. Mr. Fraser submitted to the house a draft of his bill respecting the hours of employment of persons working in shops and stores. The bill is supplemental to the factory act, under which girls under the age of 14 and boys under the age of 12 are prohibited from working in factories. The latter act also limited the hours of labor to 60 per week. Mr. Fraser's new bill is a local option measure permitting the corporations of cities, towns and villages to adopt it whenever they desire. The principal provision of the bill is found in a clause limiting the hours of employment in shops and stores to 74 per week. No limit is set to the number of hours per day, but the total number of hours per week must not aggregate more than the above number.

The attorney general introduced a bill respecting auxiliary probates and letters of administration. This act provides that bills be granted in all the provinces of the Dominion shall be recognized in the courts of Ontario. He also stated that in time the British Empire itself would be a bill to be also valid in Canada. Read a first time.

The attorney general introduced another bill respecting the law of alimony. The bill provides for a simpler and cheaper process of injured wives recovering alimony from their husbands. The act is framed from an English statute, introduced a couple of years ago and found to work very satisfactorily. Bill read a first time.

On Monday a summons were presented. The Attorney General introduced a bill respecting the Revised Statutes. Mr. Meredith said it was time the Revised Statutes were in the hands of the people. He inquired the cause of the delay. Mr. Mowat replied it was on account of certain tables. They would be put in the hands of the people as speedily as possible.

The Provincial Secretary presented a number of orders in council referring to printing and bookbinding. The Chatham High School is the status of a Collegiate Institute, and regulations respecting the Education Department and the Factory Act.

Hon. M. Hardy also presented the report of the Public School Inspector in regard to the French Schools in Prescott and Russell. There are sixty-five French schools in these counties. The Inspector, Mr. O. G. Sayers, says: "The schools are doing better than when under the supervision of English inspectors, who had not enough knowledge of French to address the pupils in their mother tongue, much less to correct the pronunciation and examine in the various subjects taught." The Inspector continues: "As it has been publicly asserted that the French are particularly averse to having English taught, I must mention that forty-three teachers and four assistants teach English reading and spelling, and in some cases the translation of English into French is also taught. Twenty-seven teach nothing but French, but of these twenty-one have a knowledge of English, so that there are only six teachers who have no knowledge of English."

Hon. Mr. Hardy also laid reports from the Inspector of Prisons and Public Charities before the house. The attendance at the Institute for the Deaf and Dumb, at Belleville, on Sept. 6th was 238, 141 boys and 97 girls. The total expenditure at this institute in 1887 was \$39,635.01 or \$171.10 a pupil. In 1886 it was \$41,029.71, or \$185.84 a pupil. At the Institute for the Blind at Brantford there were 135 in attendance, 80 males and 55 females. The expenses for 1887 were \$32,887.94, or \$247.37 a pupil. In 1886 the expenses were \$32,374.75, or \$246.78 a pupil.

## COUNTY COUNCIL.

The County Council met at Belleville on Tuesday, Jan. 24th. Mr. Biecker, Reeve of Sidney, was elected Warden and after taking the chair delivered an interesting address. On Wednesday morning the Council settled down to business. Messrs. Yerminey, W. R. Aylsworth, Parker, Farley, Nash, C. F. Aylsworth, M. Gowan, Williams, and Bacon were appointed a bridge committee, and Messrs. Biecker, Ashley and Holgate a loan committee. The Council refused to pay accounts from Dr. Rockwell and Sprague for examinations of lunatics. The committee on gaol improvement sent in their report and submitted plans for a new house for the gaol. The sum of \$100 was granted for improvements on the 8th con line of Sidney; \$150 was granted for the road leading from Murphy's Corners to Mill-bridge. Messrs. McLaren, Milligan, Ashley, Hurley, Holgate, Duncan, Robinson, Gordon, Gladney, Jas. Thompson, Wm. Thompson, Jas. Clark, and P. G. Clark were appointed the gravel road committee. The plans of Mr. Hanley were adopted for the erection of the gaol's house and remodeling of the old gaol for prison purposes. These changes will cost about \$3,000. Messrs. Hurley, Farley and W. R. Aylsworth were appointed a committee to prepare the work.

The Clerk was directed to inform parties interested that it had no objections to the proposed improvements on the Madawaska river. The council objected to reducing the number of grand and petit jurors, though the county could do with one third of the number. W. R. Aylsworth moved that business be expedited so that the council might be adjourned on Friday. The motion was carried. A motion to procure copies of the revised statutes for members of the council was passed. The Bridge Committee reported as follows: That the stone work of the Marmora bridge is completed, costing \$1,099 or less than \$5 per cubic yard. The contract for the steel superstructure was awarded to John W. Peck, Treton, for \$2,650, about \$22 per lineal foot. Timber for wooden bridges has been secured at satisfactory figures. Iron for bridges has been contracted for by J. M. Walker & Co. to furnish the southern part of the county

and J. J. White, of Madoc the northern part. Mr. W. L. Aylsworth reported that the committee appointed at the November session of the Council to get legislation to legalize the sale of tax lands in the county, had had promised to inquire if assessors in other counties assessed lands without visiting the property, and give relief. As yet he had not heard from them, and doubted if legislation could be secured at this session. The warden nominated Mr. J. O. Hoffman, auditor of county accounts and the council appointed Mr. G. F. Wood to act with him. Messrs. Ashley and Edmond Reed were appointed auditors of administration of justice accounts. His school Trustees were appointed: Madoc High School, Messrs. R. S. Casement, A. A. Macdonald and R. T. Gray; Stirling, Albert Chard; Deseronto, F. S. Rathbun, John Newton, M. D. and Thos. H. Nasmith. In the committee of the whole on ways and means Mr. Kavanagh got \$100 for bridging Eggar creek; \$700 was appropriated for distribution among the poor school sections of North Hastings and \$100 was granted for the purchase of a library for Stirling High School.

On Friday morning the report of the gravel road committee was presented by Mr. Duncan, chairman, recommending (1) that the sum of \$210.50 was paid out at the close of last session, \$109.75 of which was in excess of the estimate of the expenditure for year 1887; (2) that since then the superintendent reported an expenditure of \$469.57, on account of work done, gravel banked etc.; (3) that \$32.50 be paid to Mr. J. A. Hanley for gravel banked by James Welch and \$4 to H. Vandewater for removing fences to prevent snowdrifts, and the balance of \$188.75; (4) that the superintendent and chairman proceed in the usual way to have gravel road material placed along the different lines of the county gravel roads, and work done where the same can be done to the best advantage to the county until the June session; (5) that the treasurer honor the regulation of the chairman until next session to extent of \$350.00. (6) That the superintendent be instructed to repair the fence across Ross's lots, in 4th concession Thurlow, to prevent snow drifts. (7) That in addition to those roads upon which all expenditures made by the county have been laid out directly by and under the provision of the gravel road superintendent for a number of years past the following lines of roads be assumed by the county gravel road superintendent and placed directly under the supervision of the superintendent, viz: Road leading from Bogart to Stoen, in Hungerford, 3 miles; road leading from Hazel's Corners to Cullen Settlement Church, in Madoc, 4 miles; road leading from Gordon's bridge authority to front of Aikin's house, in 3rd con. 2 miles; road leading from Frankford to Murray town line, 1 mile; road from brick school house in 5th con. of Sidney south to 3rd con., thence easterly to Aikin's house, 3 miles; road from west side of lot 4, in the 5th con. in the township of Tyrnagundy, 4 miles; road from Thwait's corners, in Tudor, to town line Tudor, on Old Ottawa road; road from Madoc gravelled road, in 9th con. Huntzinger, easterly to Hungerford, 3 miles; road from Welman's Corners, N. to 8th con. in the township of Tudor, 2 miles; road from Bridgesville, northerly towards Flinton, in Elizaville, 1 mile; total 31 miles. This report caused considerable discussion but was finally adopted. It was resolved to grant twenty-four dollars annually to the Clerk of the Peace for stationery; \$25 was voted to the Prisoners' Aid Association, Toronto, and \$60 to poor school sections in Elizaville. The appropriations for gravel roads were passed, and the council adjourned until the second Monday in June.

## PUBLIC SCHOOLS.

Pupils on honor roll for Jan., 1888, in 4th Dept., Public School, taught by Miss Jessie Porter. Senior Class, 2nd Book:—Daniel Bayette, 830; Anthony Maxwell, 780; Minnie Noble, 770; Anthony Robitaille, 760; Pierre Vallee, 750; Suite Conroy, 690. Senior Class, Part I Book:—Mary Ellis, 810; Maggie Stanhope, 740; Alice Brown, 730; Gussie Smith, 720; David Nealon, 680; Della Brown, 670. Junior Class, Part II Book:—Louis Pagan, 520; Mervey Luffman, 470; Grace Palle, 460; Gertrude Storer, 450; Georgiana Bayette, 440; Eddie Hamilton, 430.

MRS. B. B. KEEFER.

We clip the following from the Belleville Intelligencer:—The flattering opinions which have been given and the high encomiums passed by the press in Mrs. B. B. Keefer's lecture, are not too flattering or too high, for in her lecture delivered in the Sunday School room of Bridge St. church last night under the auspices of the Women's Christian Temperance Union, she more than sustained her reputation. She spoke with a clear and refined voice; added to a handsome face and graceful figure is a well modulated voice; an easy command of choice English; a winsome manner; and few but choice and appropriate gestures. She convinces you at once that she is "read in earnest" and yet she interpreters speaking with a refined satire, with her earnestness. The W. C. T. U. are to be congratulated on having been able to develop in Mrs. B. B. Keefer a woman of such rare gifts and a lecturer of such high caliber. For two hours last night she entertained a sympathetic audience, as few audiences are to be had in this city, and then sent them away with the feeling that they have never thought before. We would not spoil so admirable an address by giving a synopsis of it, and we prefer to leave it to give it verbatim. This, however, our space forbids. In future the Belleville W. C. T. U. have only to wait for Mrs. Keefer, to secure a large audience. Mr. Hugh Walker with accustomed ability presided.

## LIME LAKE.

From Our Own Correspondent.  
Mr. Benjamin's men struck camp yesterday. Having finished operations in this section they returned to Yarker.

Mr. Lattimer is now running his mill on the 3rd concession after repairing the damage done by fire last week.

The Rathbun Company's mill on the 2nd concession commences sawing on Monday.

## GREEN POINT.

From Our Own Correspondent.  
The Sunday School Social in Mount Carmel on Tuesday night was a grand success, realizing twenty-three dollars.

Mr. John Curlett spent a few days last week visiting his brother in Wellington.

Mr. Lewis Hearn has taken Mr. Gisholm's farm on Water-street to work.

Mr. Thomas Carman, who has been confined to his bed for the past week is gradually sinking, with but little hope of recovery.

Mrs. William Shortt, it is thought, will not live many days.

Mr. William Loece's young daughter is very sick.

Mr. A. Vandusen is fattening a very fine large pair of cattle for Easter, and expects to carry off the prizes. What say you, Mr. Jamieson?

Mr. George Robin, who has been spending a few months at Rochester, N. Y., has returned. He says time is "dull in that city."

Mr. R. Potter is drawing material to build a house and barn in Picton, where he expects to retire as soon as they are completed.

Miss Ida Rutten is sick with the measles. Miss Belle Robin is confined to the house with rheumatism.

## MARYSVILLE.

From Our Own Correspondent.  
Miss Kate Drummy, of Inlay City, Mich., is staying with relatives here. She does not intend to return home until May.

Mr. John Donovan, of Centerville, and Miss Jennie Bowen, of Shannville, were united in the holy bonds of matrimony at the Roman Catholic Church here on Sunday last.

The remains of the late Michael Doyle, of Lonsdale, were interred at the Marysville R. C. Cemetery on Sunday last. The deceased was long and favorably known in this section.

Mr. M. Storms and his mother Mrs. G. Storms, drove up to Brighton on Monday to attend the wedding of Mr. John Storms.

Through the snow blockade on the G. T. R. and the stoppage of the train mail, we received no Toronto or western mail between Friday and Monday evening. Messrs. Edwards and Chapman had a cold drive out here on Sunday morning for the Deseronto mail bags tidily put off here in error.

The G. T. R. will not supply any firewood for station use along the central district in future. Coal will have to be used both winter and summer. Firewood is fast becoming a scarce article in this part of Ontario.

## KINGSFORD.

From Our Own Correspondent.  
Mrs. Donovan is very ill and fears for her recovery are entertained.

Mr. Michael Jordan is in very poor health.

Miss Isabella Jordan is very ill.

Miss Alice Shannon, of Napanee, is visiting her friends here.

Mr. & Mrs. Henderson who have been visiting here have left for the United States.

Mr. James Naphin, who has been away sometime, has been renewing old acquaintances.

Miss McKinty, of Hastings, is visiting Mrs. D. McAteer.

The Rev. Mr. Foster has been unwell during the week suffering from a bad cold. There was no service at St. Jude's last Sunday.

There was Divine Service in St. Patrick's Church, 7th con, Richmond, last Sunday.

Mr. John Roach, of the 5th con, Tyendinaga, was married on Monday last to Miss Martha York, daughter of Mr. James York, 7th con, Richmond. The ceremony was performed by the Rev. Father McDonough, who was assisted by Mr. John Roach, who was at the Parish Church, Napanee. The wedding festivities took place in Napanee, after which the happy couple left for the north. We wish the bride and groom every happiness.

The weather was intensely cold last week with a good deal of snow. We had very high winds from the northeast and north-west, and in consequence all our concession roads were very badly drifted. For a day or two travelling was a difficult matter, and many of the roads were so badly drifted that they had to take to the fields. The weather moderated on Sunday.

## MACDONALD.

From Our Own Correspondent.  
As I have not seen anything from this place in the columns of your valuable paper I thought I would send you a few notes to let your many acquaintances know that we are not all dead, nor married, nor gone away.

Mr. Harry Walters is the guest of Mr. N. Gault.

Mrs. R. Thistlewaite departed on Tuesday for Mexico after spending a few weeks with her brother, Mr. John McWain.

Mr. John McWain has been drawing fire from B. Brice's in Harburg and reports a cold time.

Miss G. Semvith has returned home after an extended visit among friends in Richmond.

Miss Hattie Walmsley has returned home from Belleville where she spent a couple of weeks among her friends.

Mr. R. Dingman has gone to Belleville to spend a few weeks. Success, Richmond.

Messrs. N. Gault, J. Hamblin and W. Howell are all busy drawing sand to the Terra Cotta Works.

Mr. Benjamin Richardson is getting ready to build a large and commodious barn in the spring and John McWain contemplates

doing the same thing. Macdonald will be quite a place if it keeps on.

Cold weather and bad roads on Sunday, which the boys do not like as they enjoy a drive on Sunday, but we are no longer aroused from our slumbers by those noisy bells. It must be that the engine got scared by those glittering diamonds. They are bad for the eyes and sometimes affect the teeth.

Mr. John Hamblin met with an accident on Monday last; while throwing sand out of the pit it came in on him breaking his leg just above the ankle and bruising the shins. We hope his recovery will not be tedious.

We have not yet secured a teacher and I tell you that some are putting on quite a long face.

Mr. Harvey Keech is still hauling wood from Adolphustown. He means to keep warm.

William Hamblin's horse got untied at the Green tea-meeting and returned home. He will tie him fast next time and save a long walk.

Thos. McWain and Joseph McConkey have purchased a new machine in place of the one burned up in John McWain's barn.

Albert Hickey intends soon moving to Youngs Bay town.

John Joyce is spending a good part of his time this winter breaking his fine team of colts.

George and Andy Birch have returned home from a successful summer's working through the Shannville concession.

Our prayer meeting is not attended very largely. I would invite the friends to turn out and make it a success.

## SHANNVILLE.

From Our Own Correspondent.  
Mr. A. Roberts, of Belleville, spent Sunday last with his parents in this place.

Miss A. Miller, of Belleville, was visiting friends in the village last week.

Miss Nettie Clark and Cousin Henry, spent Sunday last in Belleville.

The Presbyterian tea-meeting came off on the 25th, and notwithstanding the inclemency of the weather, was a success; although there were no ministers present yet the evening was pleasantly spent with readings, recitations, songs and excellent instrumental music.

On Thursday evening last a number of the members of the Methodist Church met at the residence of Mr. C. E. Clark and presented Miss Nettie Clark, organist, with a handsome parlor chair accompanied by the following address: "We, the representatives and friends of the Shannville Methodist Church, appreciating the sacred 'methodism' in divine worship, and 'knowing' that such cannot be enjoyed without considerable self-sacrifice and labor or 'the part of those whose duty it is to 'provide such, do hereby acknowledge our hearty appreciation of your kindness, self-sacrifice, and labor, in not only presiding 'at the organ, but also, in assisting to make 'the hymns sung, pleasant and edifying.

"This chair that we now present you is a 'simple expression of our thankfulness and love.

"May God so direct and preserve you, 'that Miriam like, you may always sing the 'triumphs and praises of God."

On Friday last at the R. C. Church, Marysville, the remains of Jennie Bowen, widow of Mr. J. Doreen of the Lorne Hotel, was married to Mr. J. Donovan, of Centerville. We wish them *bon voyage* through life.

## LONSDALE.

From Our Own Correspondent.  
Since the holiday season, all appear to have settled down to business and news in our village is very scarce. We are having excellent sleighing and the farmers are very busy supplying us with wood at \$1.50 to \$2.50 per cord, also hauling grain to the mill. The weather has been extremely cold, the temperature being from 18° to 34° below zero a few days ago, we noticed on Saturday morning 21st, 26° and the following Sunday 34° below zero.

On the 21st the temperature being about 20° below zero, while Mr. McKee and his men were working in the gravel pit in the Reserve they saw three large snakes each of a different kind all alive and ready for battle but the cold soon made them very quiet and harmless. They were disposed of by cremation.

On Friday last one of our old and much esteemed neighbors, Mr. Michael Doyle, of the fifth concession of Tyendinaga, died. The funeral was very largely attended at the R. C. Church, Marysville. He leaves one daughter to mourn his loss, all the rest of his family having gone before him; with his many friends we extend our sympathy to her in her bereavement.

We hear Mr. Michael Corrigan met with a very painful accident a few days ago being badly torn in the leg by a cow's horn.

Mr. John Roach, of the fifth concession of Tyendinaga was married to Miss Martha York, on Monday, at the R. C. Church, Napanee. It is thought one of our young men and maidens will be made one in a few days. Well, we will not tell names as they would not like to be published.

Mr. Robert Winters and his daughter Emma, after three months visiting friends in different parts returned home on Tuesday. His sight not being much improved, he thinks of going to Montreal for medical help soon.

Isaac D. Fox, an old resident near this village, has been since Saturday night, in the family of his wife, sleeping constantly apparently without pain, and cannot be roused so as to notice but little, Tuesday night.

## READ.

From Our Own Correspondent.  
Our old settlers are quickly passing away and one by one they are going over to the silent majority. Last week we alluded to the serious illness of Mr. Michael Doyle and his regret to be called on to announce his death in his 72nd year, which had occurred at 8 o'clock last Friday morning.

Last fall Mr. Doyle was kicked by a horse receiving a great shock to his system and from which he never fully recovered. For a time after the accident he apparently got better, but for a brief season. Several weeks ago not feeling well he went to Kingston to consult Dr. Sullivan, an eminent physician in Central Canada and he held out little hope of recovery. Shortly after his return from Kingston Mr. Doyle was prostrated on a

bed of sickness and gradually grew weaker. For the past two weeks it was evident that he was drawing near although everything was done that medical skill and loving hands could do. On Friday morning last Mr. Doyle died, surrounded by his family and friends, and fortified by the rites of the Catholic Church. Mr. Doyle was a native of St. John's, N. B., where he was born in 1817. For many years he was engaged in lumbering, and in or about 1848 retired to the 5th concession where he has since lived. He had a large family all of whom had died before him, with the exception of one daughter who survives him. He was a man well known throughout the county, a man of sterling integrity and universally respected. To many who read this brief notice we doubt not that the name of Michael Doyle will awaken many pleasant recollections. The funeral took place on Sunday morning, and notwithstanding the inclemency of the weather was one of the largest seen in Tyendinaga for some time. All that was mortal of Michael Doyle were laid to rest in St. Mary's Cemetery, Marysville, in the same plot of ground where repose the bodies of his wife, three daughters and five sons. In her sad bereavement his daughter has the consolation of being the whole community. *Requiescat in pace.*

Mr. John Healy, of the 9th con, who has been ill for some time, died on the 6th ult., aged 51 years. His funeral took place on Saturday at St. Charles Cemetery and was largely attended.

Mr. Michael Corrigan met with a severe accident last week, having been hooked in the thigh by one of his cows as he was grazing the weather was very cold. We have had a good deal of snow and many of our roads are badly drifted. One would think we had been getting the tail end of the great blizzard.

Letters have been received from Mr. and Mrs. James Walsh who arrived safely at their home Ohlman, Johnson Co., Wyoming Territory, some days before the great blizzard.

## TYENDINAGA RESERVE.

From Our Own Correspondent.  
William Joyce has given up the farm he had leased from Jacob B. Brant, reason the rent was too high for so small a place.

Due to the extreme stormy weather the missionary meeting at Christ Church, was not as well attended as in former years, the collection too was small. That however at St. John's was in every respect much better than usual.

Mrs. Denis Cero, who is one of our oldest inhabitants, died on the 26th Jan., aged 70 years. She had been married twice, the first time to Jacob Brant in 1860, when the young lovers with their friends, walked through the forest to Kingston to be united in matrimony by the Rev. Dr. John Stewart, one of the pioneer clergymen of the church of England in Ontario.

The past week has been one of intense excitement with us on account of an impending election to fill the vacancy caused by the dismissal of Archie Culbertson who was again the victor candidate. Two of the Tory candidates nominating Dr. John Stewart, in matrimony with Dr. John Stewart, field to one of each political party: Jacob B. Brant, supporter of the present Monark Government, was elected on Tuesday last by a fair majority.

Notwithstanding the fact that the Tories in hereditary chiefs were consistent, taking no stock in the election. The five elected chiefs are men bearing leaving the old testament notoriety—Isaac and Jacob, patriarchs; Samson, the strong man, and Joel the prophet, a man of melancholy turn of mind who foresees difficulties and changing his people long before they come.

On the occasion of the twenty-fifth anniversary of Rev. Father Brennan's clerical labors in Pictou many handsome gifts were tendered him. Among these were a beautiful chalice from his congregation, and a missal from the sisters of Loreto, Toronto.

## DONT

Let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.  
Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.  
The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble ahead.  
All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Bosche's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is themselves." Bottle only 75 cents. Ask any druggist.

FRIDAY, FEB. 3, 1888.

### LOCAL ITEMS.

White and grey cottons, shirtings, sheetings and tiebacks just received. Splendid value. Kerr & Wims.

Mr. Chas. Scott is preparing a lecture on "Physiognomy" to be delivered at an early date.

Mr. Douglas intends holding a reception and social in the White Church at an early day.

A large party went up to Belleville on Wednesday evening to hear Janaschuk as Meg Merrilies.

The pilot of the Bay of Quinte Railway engine was broken while fighting the snow drifts on Friday night.

The local government will accept the sum of \$25,000 from Cambridge as a full settlement of the municipal loan fund debt, which was originally \$30,000.

The members of the Board of Health met on Monday night and organized by electing Dr. Vandervoort, Chairman, and Mr. R. N. Irvine, Secretary.

The County Council adjourned last Friday, and the *Journalist* says it is the first time in the experience of the oldest member that the Council has adjourned before Saturday.

At the last meeting of the County Council the following gentlemen were appointed trustees of the Deseronto High School, viz: E. S. Rathbun, John Newton, M. D., and Thos. H. Nassim.

A new postal arrangement between the United States and Canada goes into effect on the first of February. Parcels up to five pounds in weight will be allowed and the rate will be 12 1/2 cts per pound.

Mr. John Hamby, of Fredericksburg, had his left leg broken above the ankle on Monday morning. He was working in a sand pit when it caved in with the above result. The fracture was reduced by Dr. Newton.

A song service will be held in the Methodist Church, Deseronto, on Sabbath evening next, at which time a review will be given of a part of St. Paul's second Missionary tour. A cordial invitation is given to the public to be present at the above service.

A town by-law notwithstanding, residents of Centre and other streets still persist in throwing piles of ashes on the streets. We thought that after the Riot execution there was to be one law for all throughout this dominion.

The sleigh-bell by-law has been set at naught all winter. There can be seen at all hours of the day and night without a solitary bell to give warning to the unfortunate pedestrian, who will soon have no rights at all in this community.

On Sunday morning, Wm. Allen, of Newburgh, will conduct the services in the Church of the Redeemer. On that day Rev. R. J. Craig, by appointment of Presbytery, presents the claims of the augmentation of the scheme to the congregation of Newburgh.

Farmer's men in Deseronto should see the "Zebra Wire Fencing" at the Big Store. It is the most durable and cheapest fencing in the market.

The *Madoc Review* says: "An application will be made to the Legislature at its present session to include in the 'lawyers and peddlers list,' the reports of printers who solicit printing outside of their own counties.

We know merchants who, instead of supporting the local offices, get their printing done out of town, and yet whine piteously when people patronize tramp tea-men, shoddy-cloth peddlers, and other classes of transient traders."

We trust that the communication of "R" in another column will receive attention. A big drum may in time become a great annoyance especially when it is used at great times and in moderation. There must be consideration for the feelings and opinions of others. Most certainly legal redress could be obtained if the persistent beating of the drum continued to such a late hour of the night as that mentioned in the communication.

A new and correct theory for the cause of baldness in males and its absence in females has at last been discovered. The sole cause is that men pull their night shirts off over their heads. An immense amount of friction is produced by pulling six feet of shirt over a man's head every day for 365 days in the year. In one year a man pulls 2,190 feet of shirt over his head, 87,600 feet in forty years, or over 16 1/2 miles. It is enough to make one bald to think of it.

Two large drunks of Deseronto folk drove down to Napanee last Friday night and "surprised" Mr. & Mrs. John McKenney at their residence. The visitors met with a hearty and hospitable reception and enjoyed themselves very happily, prolonging their visit far into the morning. The night was cold and the high winds drifted up the roads, but despite all this the whole party young and old—but, we beg their pardon, all were young that night—appeared to enjoy the drive, and all are looking forward to a renewal of the pleasures of the occasion.

On Saturday morning, Jan. 28th at Tamworth, Mallow J. Wormworth, late of Tamworth, who last for several weeks resided with his son Nathaniel, drank the contents of a bottle containing corrosive sublimate. Medical assistance was secured, and every thing done to counteract the poison, but through the large quantity swallowed it was impossible to save his life. He died on Sunday night at half past twelve, 26 hours after the poisoning. Family trouble seems to have been the sole cause of the rash act. He had serious trouble with his family in Tamworth, which was settled a week ago by his paying \$1,100 to his wife for her support. The loss of this money, it is said, preyed upon his mind, that he committed suicide.

### Choice brands of Imported Cigars at The Big Store.

B. W. Washburn cut his knee cap the other day by letting a hand saw fall upon it. The *Record* states that the Rathbun Company intend starting an agency and lumber yard in Smith's Falls.

The total eclipse of the moon last Saturday night was clearly visible and observed by many local astronomers.

Boys had better be careful how they coast on the sidewalk. Mrs. Stanhope, an aged lady, was run down the other day.

The Orange County Lodge of South Hastings will hold their annual meeting in the Orange Hall, Belleville, on Tuesday, the 5th inst.

Rev. R. S. Forneri, of Adolphustown, conducted the services at St. Mark's Church last Sunday. The church was crowded to the door at evening service.

Messrs. Wm. Stoddard and Jas. E. Richardson, of the Big Store, set out on Tuesday morning with great eclat on a business tour through the surrounding districts.

Mr. John Holcomb, who had his finger badly crushed last week, is getting along nicely. Dr. Vandervoort does not think it will be necessary to amputate the digit.

Mr. Godfrey Colch purchased from Mr. Thomas Roach, Jr., the house and lot, formerly part of the Pringle property on Edgar street. The price paid was \$200.

This year Easter will fall on the first of April, nine days earlier than last year. The latest Easter occurred in 1886, the 25th of April, and it will not fall on that date again until 1943.

Mr. James Stokes, C. R. of Court Deseronto, I. O. F., received a cheque the other day for \$14 being his benefit for twenty days sickness of brother Wm. Ludman.

Mrs. Hillman, late of the London Royal Academy of music, is prepared to give instruction on the piano and organ and also vocal music. For information as to terms, &c., call at the Deseronto House.

We observe that Mr. W. P. Hudson, member for East Hastings, has been placed on the following standing committees of the Legislative Assembly, viz: Standing Orders, Municipal Committees, Private Bills.

The license question continues to absorb a great deal of public attention, and various petitions are in circulation for and against the proposed by-law of which notice was given at the last meeting of the Council.

Mr. J. A. Forin, barber, &c., Belleville, inserts his card this week in THE TRIBUNE. Mr. Forin is one of the leading young lawyers of the county; all legal business entrusted to his care will receive prompt attention.

Reva, D. O. Cramley and Dewey have had most successful meetings in Norwood, over two hundred and fifty persons being converted. They proceed to Listowel where they will hold their first meeting next Sabbath.

The Deseronto Musical and Dramatic Company of public and popular entertainments at the town hall, Deseronto, on the evening of Saturday, Feb. 11th. This company invariably performs to large and delighted houses.

The Ontario states that A. G. Douglas, V. S., has returned from a trip to Rathbun's lumber shanties, where he found several dead horses with the distemper, but none of them had glanders as reported. He thinks the horses will recover.

Mr. Samuel Shaw has for several months been confined to his house by serious illness. Mr. George Stanhope very kindly collected twenty dollars in cash and six dollars in goods from the charitable people of Deseronto to relieve Mr. Shaw and his family in this time of trouble. The recipients of this bounty desire through THE TRIBUNE to thank their kind benefactors.

The election to fill the vacancy in the Indian Council of the Tyendinaga Reserve, caused by the removal of Chief Collettson, took place on Tuesday. After a keen contest Jacob Brown was declared elected over his opponent Chief Collettson, who again contested the seat by a majority of fourteen votes. Chief Brant received 60; and Chief Collettson 74 votes.

George Eyrel, the well known stenographer, fell on the street in Toronto on Friday night of last week. He lay for some time unconscious, and then finding that he was badly hurt he crawled to the nearest house and was taken home. Both his hands were stiff and it is feared he may lose them. He is a member of the Harniss staff, and had been reporting the proceedings of the labor commission.

A large party drove from Deseronto to Greta to attend the Methodist tea-meeting on Tuesday evening. The crowd of people kept up their reputation, the affair proving a great success. Uriah Wilson, M. P. president of the association, made a happy speech. The other speakers were Revs. Howard and Campbell and Messrs. Cadman, Bennett, of Napanee, and A. A. Richardson, of Deseronto. Mr. Sills, teacher, gave an excellent reading, and Miss Aylesworth, of Napanee, contributed a recitation with excellent effect. Proceeds \$92.05.

The monotony of shanty life is frequently relieved by exciting and startling incidents. One of these occurred at one of the Rathbun Company's shanties a week or two since. Four men, to wit, Jas. Mallow, Jas. Lapum, John Fowles and Dan Griffin left Maloney's shanty one evening to visit Callaghan's about two miles distant. With steady tread the quartet proceeded on his way to the shanty. The pale moon overhead smiled down upon them the mighty giants of the forest throwing weird shadows across their path. Not a sound was heard save the snapping of a tree by the frost or a twig by a rabbit. Half the distance was traversed when suddenly their heads were raised by the sight of a train of the underbrush by the side of their track. A race for life followed. One of the four men and was left to be devoured by the way-side. The others threw away their caps, coats, tobacco and other impediments. They never ceased their mad career until they reached the shanty where nature's lantern in Widow's letter of last week, and judge if this could be accepted as an apostrophe from coal and fellow citizens. No gentleman, this is too thin; the public had the widow's appeal last week; the public had the mother's thanks. Now that must and will have in the future of the letter.

DIOCESAN MISSIONS.

MISSIONARY MEETING IN S. MARK'S CHURCH.

The Annual Missionary Meeting was held in S. Mark's Church, on the evening

of Thursday, Jan. 28th. Rev. Rural Dean Stanton, Rector of the Parish, presided and in a few remarks introduced the members of the deputation. Rev. Mr. Scantlebury, of Shesboro' Lake, was the first speaker. He made an earnest appeal on behalf of the outlying districts of the diocese, showing the good work being done by missionaries and the need for greater support from old and newly congregations. Rev. Rural Dean George of Kingston, followed in a speech replete with interesting information. He said the diocese had been in existence some twenty-five years. Originally composed of 46 stations it had increased to 105; from 53 clergymen to 120, with 125 churches and 45 rectories. There were, however, yet some 80 places without a church of any kind. The missionary fund was about \$10,000, and this year over \$11,000 would be required. Out of the 105 stations were supplied, and several of these stations were in old settled portions of the diocese. More money would be required in the future if the Church was to hold its own. During the last session of the synod a large part of Nipissing territory had been included in the diocese. No speaker forcibly urged on all the duty of enlarged liberality.

The proceedings of the whole meeting were interesting. The music on the occasion was very good. Miss Millie Anderson sang the solo, "The King of Love, my Shepherd is," and Mr. Hillman rendered the "Vital Spark of Heavenly Flame." Mr. Hillman presided at the organ with marked ability. After the chorale he also, by request, gave an organ recital and sang "The Lost Chord" from Sullivan's new opera. The collection for the mission fund amounted to \$24.71.

CHRIST CHURCH, TYENDINAGA RESERVE.

On Sunday morning the meeting was held at Christ Church, Tyendinaga Reserve. Notwithstanding the bad roads there was a fair attendance. Rev. G. A. Anderson, the Rector, after the usual morning service, introduced the Rev. Mr. Scantlebury to the congregation. Mr. Anderson stated that the people of the Reserve were greatly indebted to missionary associations for the land for their present privileges. In his address he referred to the attachment of the Mohawks to the Church in olden times when they used to walk to Kingston to be married or to get their children baptized. He gave some interesting personal experiences of his own when a missionary in Algoma. He also stated that the children of the Reserve Sunday schools contributed to the Algoma Mission Fund.

The Rev. Mr. Scantlebury gave a very interesting address. He said that in these days of sentimental religion and fanaticism people should be aware of being carried away by every wind of doctrine. The Church of England, as a branch of the universal church, had a work to do in Canada. His mission at Shesboro' Lake were people who had driven all the way to Kingston to get their children baptized, thus showing their devotion to the church. The missionary societies in England were doing enormous work in the colonies. Last year was a marked year. It was the Jubilee year of Her Majesty's reign; it was also the year in which they celebrated the centenary of the establishment of the episcopate in the colonies; and they also had celebrated the 25th year of the reign of Queen Victoria of the diocese. He gave some important facts about the work of missionaries in the remote districts and the hardships, including the loss of life and property, to which they were exposed. He trusted that the offerings this year would exceed those of the previous seasons.

Mr. Scantlebury also addressed a large congregation at All Saints' Church, at the afternoon services.

MRS. HILLMAN, lately of the London Royal Academy of Music, is prepared to give instruction in Singing and also on the Piano and Organ. For terms, &c., call at the Deseronto House, Feb. 3rd.—1 in.

### REDUCTIONS

We are hurrying out winter goods as fast as possible in order to make room for spring goods which are crowding in. Prices are low—too low to make a profit but we want the room worse than the goods and you want the goods because you can get them so cheap.

This week we are going to give you a continuation of the Bargains offered last week. Keep in mind the articles and figures of last week and to them add the following which are equally good bargains.

Overcoats.

A Boy's overcoat which was \$2.50 is now \$1.50, \$3.00 now \$2.00, \$4.00 now \$3.00, \$5.00 now \$4.00. Being made up in the latest styles these are really desirable goods. Boys' suits at equally low prices. Men's heavy overcoats which were \$10.00 now \$8.00; \$9.00 now \$7.50; \$8.00 now \$6.50; \$7.00 now \$6.00; \$6.00 now \$5.00. A few ready made suits winter weight cheap. Odd Coats, Vests or Pants at half price and in some cases even less.

Carpets & Curtains.

Ends of carpet in Hemp, Union, all wool, Tapestry and Brussels at a great reduction. Oilcloths from 35c per yd, new patterns, new goods. In and out door Mats in Cocoa, Wool, Tapestry and Stilton. Lace Curtains very cheap.

Spring Goods.

Our orders for spring goods are very large. When our stock is complete we will show you a selection which will be unsurpassed by any.

Dress Goods have been purchased at from 10 to 30 per cent less price than ever before. The patterns in Fancy Dress goods are simply elegant. In Gloves and Hosiery we will show superior goods and superior values. Cottons have advanced a little in price but the foresight of our Mr. J. S. Robinson in placing a large order before the rise will enable us to give our customers the benefit. As to Ducks, Cottonades, Shirtings &c., we strongly urge you to examine our stock before you make your purchases. It will be a pleasure to show you the goods.

We still maintain the lead for Reliable goods at lowest prices.

### A FARMERS' INSTITUTE FOR EAST HASTINGS.

To the Editor of The Tribune.

DEAR SIR:—Why do not the farmers of East Hastings meet and organize a farmers' institute? Others are doing so all around us. Surely, it is not because we are lacking the push and energy that they have cast and west of us; but I for one, do not think that the reason. It is my opinion that we have men in this region capable of filling any of the offices or performing the other duties of an institute, as well as in any other county of Ontario. Why not then call a meeting and organize? I give below the regulations for forming farmers' institutes, that is, as far as I can remember them.—The permanent grant of \$25 to farmers institutes is payable subject to the following conditions:—

(1) That one institute may be organized in each electoral district of the province, exclusive of cities.

(2) That each institute shall be composed of no less than fifty members who shall pay a fee of not less than twenty-five cents annually.

(3) That there shall be an Executive or Board of Management consisting of a president, vice-president, secretary and treasurer, and five or more directors, and the majority of the board shall be practical farmers.

(4) That the Institute shall hold at least two meetings each year in different parts of the electoral district for the discussion of agricultural subjects.

(5) That a sum not less than the government grant shall be voted to each institute by the council of the county in which the electoral district is situated.

The objects of the institute are:—

(1) To further the material interests of the farmers by encouraging and fostering co-operation in their calling.

(2) To afford protection to the farmers from all encroachments that may come from other interests of the community, more especially through co-operation with the Permanent Central Farmers' Institute of Ontario.

(3) To encourage the growth of an improved class of stock; to encourage a better system of tillage, and further every branch of agriculture in which our county is interested.

(4) To conserve and secure the just rights of farmers in their relation to legislators, corporations and individual industries.

(5) To secure better facilities for the transportation of farmer's produce and by this means extend our markets and open up fresh ones.

Now, Mr. Editor, I have taken up far more of your space than I intended. If so, you may cast this to the winds. But, if possible, I would like to have this communication inserted in THE TRIBUNE, as it may tend to bring the farmers together to discuss this subject and may result in the formation of an Institute in East Hastings.

AUBURN LETTER.

To the Editor of The Tribune.

SIR:—It is a long time since I have sought to occupy a portion of your space in the columns of the paper. A journal designed more for local circulation needs intelligence of a local character to interest its readers. The stirring scenes of our great metropolis furnish events of general importance, and can always form of interest to the general reader; but in our little quiet rural city there is not much occurring to engage the attention of those residing in your district. Our town has not improved in its styled "Prison City," having the oldest prison in the state, but notwithstanding its frowning walls and gloomy atmosphere, it does not have the effect of preventing crime in this city. I am not referring to the acm of the criminal classes, but to those holding high positions. Our city has been lately stirred to its very depths by astounding developments of errors committed by one of our trusted bank officers. He is supposed to be safe in that place of refuge for the violators of our law, our own Dominion. Would it not be well if some needed legislation could be enacted by both countries to remedy this evil, which affords encouragement to crime by removing the fear of punishment? I presume many of the residents of your little town feel that they are making some sacrifices in having their home in such a circumscribed sphere as the small town of Deseronto, and are participating in the future of the enjoyment of city life. If the city has its advantages in outside amusements it has its drawbacks. In the interchange of social and friendly intercourse it fosters an artificial life of excitement, which is foreign to that genuine happiness in the soil which is cultivated by the quiet of country life. The highway to promote the happiness of home is to give it domestic life, interest, not alone in the way you occupy and its little surroundings, but in the place itself by doing all you can to promote its business interests, its attractive appearance, and in elevating its literary taste, for intelligence is the true standard of a well ordered community.

The subject of home improvement is awakening a good deal of interest in most of our towns just now. Boards of trade are being organized in all directions to promote in every way home interests, and our towns are being benefited by this movement. It imparts a stimulus to every other interest as well as business and inspires mutual confidence, all working for the general good, and possessing a commendable pride in the place in which they reside.

## NEWS OF THE DAY.

Mr. Gladstone returned to England yesterday.

The German Military Bill passed in the Reichstag yesterday.

It is again reported that the negotiations for a Franco-Italian treaty of commerce have collapsed.

The U.S. Senate has postponed consideration of the Extradition Treaty with Great Britain till December next.

Sir Thomas Grove, M. P. for Hiltun, and Benj. Hingley, M. P. for North Worcester, have left the Unionists and joined the Gladstonians.

The United States Consul at Moscow describes a process invented by a Russian whereby iron and steel are produced directly from iron ore.

Some of the Berlin papers have despatched from San Remo indicating that the treaty may have to be resorted to shortly in the Crown Prince's case.

United States detectives have seized \$55,000 worth of opium, valued at \$100,000, Canada via Vancouver and was taken through the river from Brockville.

Toronto Council last night decided to send Hon. J. B. Robinson to England to oppose, on behalf of the city, the proposed out of the Northern amalgamation scheme.

Lord Stanley of Preston is to succeed Lord Lansdowne as Governor-General of Canada, Lord Lansdowne's successor, Earl of Dufferin as Viceroy of India and the latter will return home, probably to become a Liberal Unionist representative in a Coalition Cabinet.

## LOCAL ITEMS.

Local clergyman complain of a dearth of marriages. Have the young ladies forgotten that this is leap year?

Mr. S. B. Bowdler, M. P., is so far improved as to be able to take a drive out on the streets of Belleville.

Robert Walker, of Timbrow, whose death is mentioned elsewhere in this issue, was a brother of Mr. Daniel Walker, of this place.

A vast congregation crowded the Methodist Church last Sunday evening, the occasion of the service of song. The addresses of the pastor were instructive and impressive.

Is there no way of arousing the Indian Council from its apathy and of inciting it to take steps to open out the road west of C. Maricle's to the great lake?

The Orange County Lodge of South Hastings held its meeting on Tuesday and elected the following officers:—Wm. Hill, C. M.; R. Robinson, D. M.; Wm. Aray, Chap.; W. H. Gordon, Sec.; M. Macdonald, Treas.; P. P. Pettit, Dir. of Cer.; T. Selkirk, Lect.; T. Thompson and Geo. Graham, Dep. Lects.

An agency for the Canadian Pacific Railway has been opened in Deseronto. Parties desiring to purchase tickets for any point along the line of the C. P. R., or Kingston & Pembroke railways or for any point in the west will find it to their advantage to purchase their tickets from S. Russell, agt. THURSDAY.

The question of forming a society for the cultivation of local spirit in Deseronto has again been mooted. It is to be regretted that there is so much jealousy and petty bickerings among our local musicians as to prevent any such scheme from being carried out to the formation of such a society. Cannot all interested meet and organize and give us a musical boom in Deseronto?

The proceedings of the Legislative Assembly have during the past week been devoid of interest. The sessions have generally been short and taken up chiefly with notices of motions. On Wednesday, Mr. Wood of North Hastings succeeded in securing the appointment of a committee to report as to the sufficiency of existing legislation for fostering the manufacture of butter and cheese.

We think we see the dawn of a real display of public spirit, and the partiality of the residents of Deseronto. As a people we have been resting too much on our oars, waiting for something to turn up. That is not the way to build up a town. Each individual, no matter how humble his lot, can do something to advance the interests of the place. Let us take hold and work and fight this year to advance the interests of Deseronto. All that is wanting is more confidence in ourselves as citizens.

A Concert and Literary entertainment in aid of the funds of the Presbyterian Church in Sarnia, will be held in the Masonic Hall Sarnia, on the evening of Thursday Feb. 22nd. The speaker is expected to be an energetic committee who have already secured a strong array of talent. Mr. & Mrs. George E. Fax have kindly consented to assist, as also Messrs. W. A. Macdonald, & S. Lemox, of Belleville, and Messrs. Bedford, Aylsworth and McEae, of Deseronto. Tickets are placed at 25c. children, 10c. Remember the date of this event, Thursday, February 22nd.

Let that cold of your run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept healthy and clear. The matter is an offensive matter. Otherwise there is trouble ahead.

All diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boesche's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is themselves." Bottle only 75 cents. Ask any druggist.

The Bell telephone patents have been sustained in Mexico.

An Indian arrested at Fort MacLeod a few days ago was thought to be Deerfoot, but he turned out to be Bad Dried Meat, probably an alias.

Fishing at Saddle Lake, N. W. T., was a failure last season owing to water insects eating the nets to pieces every night. There were plenty of fish, but they could not be caught.

Principal Cairns, of Queen's University, believes that when all the causes report next week it will be found that the quarter of a million required for the jubilee endowment fund has been subscribed.

Complaint has been made to the Dominion Government that a man who escaped from jail on the American side of the " Soo " was pursued by American officers into Canadian territory and forcibly taken back.

A biological examination of samples of Ottawa city water made in Toronto has demonstrated that the water is unduly infected with bacteria, though it is not settled definitely whether they are typhoid fever germs or not.

The Toronto Board of Trade decided to apply to the Dominion Parliament for amendments to their Act of Incorporation giving them power to compel the attendance of witnesses in cases of arbitration and to enforce awards.

The Archbishop of Canterbury has decided to nominate a bishop for Nova Scotia as the Provincial Synod will not guarantee the ratification of his nominee, and the Synod will therefore have to make another effort to elect its own bishop.

The New York World says that what Manitoba wants more than anything else is a new climate. " New climate, yourself! Manitoba will be plunging before Dakota, Montana or Minnesota find out where they left their fences last fall.

It is proposed by leading members of the Bar of Montreal to call an indignation meeting at an early date to protest against the neglect of the Local and Dominion Government to remedy the present unsatisfactory condition of the administration of justice.

The following new post offices were established in Ontario on Jan. 1st: Anson, North Hastings; Blackwater Station, Leamington; Ramond, Renfrew; Les Menes, Muskoka; Perry Station, Monck; Spanish River Station, Algoma; Yonge Mills, South Bruce.

It is reported that the Prince Edward Islanders are indignant over the failure of the Dominion Government to maintain regular communication between the island and the mainland, which has been declared to be five years more incomplete and irregular than for many years.

A scheme for establishing a penal colony in the North-West Territories Colony had Alchemas River, with a view to the development and settlement of that region, is proposed by Warden Bedson, of Manitoba. Feasibility and cost have been estimated by Inspector of Prisons, in his annual report.

The first special four train from Minneapolis by way of the Saint Ste. Marie and Canadian Pacific Pacific coast line, having made the journey in five days despite the heavy snow and severe cold. The train left immediately for Boston, where it is expected to land the next day.

The Postmaster-General says that the convention for a parcel post service between Canada and the United States had been signed by himself and Postmaster-General Vilas and only requires the signature of President Cleveland to make it legal. The terms agreed upon were satisfactory to both Governments and it had been arranged for the service to be inaugurated on March 1.

When one of the politicians imprisoned for bribery in West Brantford County had completed his term in jail he was given an oyster supper by the gaoler, and was driven in state through the town, the sheriff and the police magistrates taking part in the proceedings. Such is the statement of the Conservative journal at Picton. It is to be hoped the story is true; for if it is, it would appear that officers of the law are doing their best to make hippopotamus respectable.

The burglary in Montreal on Saturday was certainly one of the most extraordinary on record. Not content with carrying away three iron safes—one large one worth \$1,800—the enterprising burglar made away with books, bookcases, desks, chairs, letterpresses, counters, and even the flooring, including the joists. The property of the ransacked premises came upon the scene in the morning he no doubt felt grateful that the ceiling and walls were still left to him. In such a case the smallest mercies are greatly to be appreciated.

At a tea meeting in a New Brunswick parish there were some unusual features provided. In one corner of the church an enclosure was prepared, within which two young ladies were sitting and were to be seen making a patch-work quilt. All for the single admission. Tickets ten cents. It is a wonder that in order to make the leap year effect complete, the young pastor—and he must have been a very young pastor—was not shut up in another corner and a doll in his hand and ladies engaged to before the altar with proposals of marriage.

The practices in many matters in the various provinces are curiously divergent. In Nova Scotia and British Columbia there are divorce courts, but there are none here. In Nova Scotia street cars may be run on Sunday, as driving, according to the courts is not serious labour. Buses they may run to carry people to church; in Ontario they must not be run under any circumstances. In British Columbia Sunday newspapers are published, and the closing of saloons on Sunday is a matter for municipal and not provincial regulation. Here Sunday is observed unconditionally, except, as the prolixity, by Indians. Here the Legislature regulates the municipal franchises. In New Brunswick the city council fixes the voting qualification.

The doctors have decided that if the Crown Prince of Germany dies, his disease is of a fatal character, but if he recovers it is not incurable.

Many of Mr. Parnell's followers, including the two Heales and Mr. Dillon, object to their leader's proposed policy of abstention from the Government.

The Paris *Univers* has a report from Rome that the English Cabinet accept a Papal mediation in regard to Ireland on the basis of Mr. Parnell's report.

A gigantic Christmas tree was sent from Potsdam to the German Crown Prince at San Remo, so large that it was too big for transportation, each half filling a freight car.—*Reut.*

Out of 53 palatial residences in Paris insured by a Government insurance company, 47 were found to have such defective plumbing that the health of the occupants was constantly threatened.

The Pope has advised the Irish bishops and priests visiting Rome to use their influence to restore respect for the law in Ireland, as the Irish people could not obtain what they asked by violence.

If the records of her baptism in Knockmash, Ireland, are correct, and if she lives until the 10th of August, Mrs. Bridget Doody, of Mineral Point, Wis., will be 116 years old. She has outlived all of her ten children. Her youngest son, who was born when she was 58 years old. She is in pretty fair health, and seems likely to live for several years.

At a dinner at the Mansion house, London, three foreign consuls were present when the Lord Mayor wished to honor by drinking their healths. He accordingly requested the three consuls to announce the healths of "the three present consuls." He, however, mistaking the words, gave out the following: "The Lord Mayor drinks the health of the 3 per cent. consuls."

The experiment of giving halfpenny dinners at the Birmingham schools has been so successful that farthing dinners have been ordered and nearly succeeded. Twenty and twelve thousand farthing dinners were given last year at a cost of less than 30 100ths of a penny. The attendance at the schools has been greatly increased, and the good effect upon the temper of the children has been astonishing.

The strength of the Russian troops assembled for action in the western provinces toward the end of December is reported by a German military paper as follows:—In the first line, close to the frontier, there are stationed eight army corps, one each at Riga, Kovno, Plozk, Minsk, Petrohof, Warsaw, Ivanogrod Lublin, Rovno, Shitomir, Kiel Meelebove and Kishinev. The second line is made up of three corps, one each at Bialystok, Minsk, Tchernigov, Orsk and Karkof Poltava. The third line consists of five corps, one each at Novgorod, Petersburg, Moscow, Jonslay and Kazen Soratof. Each of these sixteen corps is composed of 100,000 men, of which there are further nine divisions of cavalry on a complete war footing and receiving already war pay, close upon the frontier.

The four divisions stationed at Romy, Tchernigov, Jelsavetrov and Kishinev are the most formidable, and the last line consists of three divisions, one each at Romy, Tchernigov, Jelsavetrov and Kishinev. These thirteen divisions count 3,600 horses each, or, altogether, 46,800. Each division is supplied with two batteries. The total force amounts, therefore, of 757,000 men, of which eight corps and nine divisions of horse, or 356,000 and 35,400 horse form the first line. Railroads with double track, and the second and third lines with the first—that is, they can be moved forward so rapidly that they can be in the enemy's hands before the first are simultaneously with the forward movement of the latter.

## TREACHEROUS.

A reporter for the Fall Mail (Gazette) recently conversed with Mr. Barlett, superintendent of the London Zoological Gardens, about his experience with the hippopotamus. According to Mr. Barlett's account, this animal makes an interesting pet, although—at the moment—somehow, it is not a very pleasant animal to keep.

Obach, the first hippopotamus that came to the notice of the zoological gardens of Egypt in 1851. He died in 1879. For some reason or other the bute got attached to him whenever he saw him.

We were the greatest of friends, and he was so docile that I used to ride on his back. In 1859, I was engaged in mounting a hippo man hippo for the Crystal Palace, and went into Obach's den to make some measurements. Thinking no evil, I was busy with my tape, when suddenly slipped, and the brute turned around on me with a furious snarl, gnashing his jaws fiercely. I rushed for my life, and escaped through the rails.

The keeper who was with me, did the same. I was a very near thing, indeed, for both of us. At present we have only one hippopotamus here—the daughter of Obach—who was born in 1872. Well, one day a stray dog strolled casually into the gardens and stopped under the rails of the hippo's enclosure.

The day was warm, the pool was tempting, so the dog wriggled through the rails and sprang into the water to his do. The hippo rose to the surface, and, roaring, took the dog into her great jaws and crushed him to bits.

Another narrow escape was that of a keeper who came home to the gardens very late one night. He was slightly tipsy and was tripped up at a bush and plunged into the pool. Unfortunately, the hippo was also in the pool, doing the way in.

The keeper of course, thought that he was locked up in a cage. He did not discover his mistake until he heard a croaking with the back of the huge amphibian. The hippo swam after the man, but was not quick enough. The keeper just escaped, and when he wanted a bath after he took it elsewhere. Had the brute got at him, only his mangled remains would have been found to tell the tale.

When our baby hippo was born the mother was terribly savage. I was afraid she would kill herself and her baby as well as me. I was compelled to feed them through the ventilator, and never dared to go into the house.

## FARM.

NOTES.

Protest tender trees and plants.

Plenty of good food, remember.

Extra feed for pigs and poultry.

Protect fruit trees from the "alibabber."

Guard grain against the rats and mice.

Don't use the torturing choke chain.

A clean, well-ventilated cellar.

Milk for young pigs and calves should be fed warm.

Farming land in Connecticut, except in the vicinity of cities, has not increased in value in the last thirty years.

Where hens are not changed from one locality to another they will attract a great many more eggs in the course of a year. Even the native leghorns form an attachment to a certain place.

If a farmer has plenty of patience, and is willing to give close attention to details in the care of stock, he can make more money for food consumed from sheep than from any other stock.

It ought to be settled beyond dispute that it pays to provide good shelter for all the stock on a farm. It is better, as far as possible, to provide for this ahead of time when it may be wanted.

The Wisconsin Dairymen's Association met in Racine, January 27 to 27, inclusive. These meetings always attract a large crowd, only in the state, but are attended by dairymen from surrounding states.

At the Ontario Agricultural College, an experiment was made of feeding a head of store cattle with twelve pounds of each of thirty-five pounds of turnips and nine pounds of wheat bran per head daily, and also the same amount of hay and straw with different kinds of grain, resulted in the lowest cost of production on the bran ration.

The Maryland Farmer says that while thousands of dollars have been made in growing cranberries, large fortunes have been made in raising turkeys. Only the wealthier owners, who have expended vast sums of money in improving and equipping their property, can calculate with any degree of certainty on a paying crop of fruit every year.

There are no secrets in sheep raising. It has to be done by feeding. The sheep have to eat something, and that something has to be good. The sheep will eat anything, fruit, or anything that is wholesome and nutritious, but must be abundant and unfailing. Weeds, brush and briars will keep sheep fat, but they don't keep sheep in good condition on such pasture, no, nor wool.

The Dairy Associations of the Scottish shires of Dumfriess and Wigton have decided to make a joint endeavor to secure for next season a first-class Canadian instructor in cheese-making. This is a compliment to Canada; but it will be a more particular compliment to Ontario, for it is in this province that the Association will look for their expert. It is not a little remarkable that the Dominion should be invited to instruct the Mother Land in cheese-making.

## CHINA'S GREAT CALAMITY.

(Shanghai Correspondent London Standard.)

It needs no small stretch of the imagination for people in England, perfectly acquainted as they are with the gigantic river which was, centuries ago, and fittingly designated "China's sorrow," to comprehend the extent of the latest visitation on the beautiful Province of Honan. The news is only now being ascertained, although the breach in the embankments which the treacherous waters have made in the first wild rush of the rain-swollen waters many cities, towns and villages innumerable were submerged and countless thousands of persons of every rank drowned. But, as is usually the case, the officials in charge of the river at first attempted to minimize the extent of the disaster in their memorials to the Throne. A higher functionary, however, was directed to report the full facts of the occurrence, and his story gave a very different aspect to the tale.

About one sixth of the entire area of the Province of Honan, as it is styled, is now converted into a vast lake, with here and there a pagoda top or the gable of some ancient building rising above the water, to mark the site of what were, a short time ago, prosperous cities of many thousands of inhabitants. The rest of the country is in ruins, with the inhabitants who were fortunate enough to escape with their lives, though with nought else. In hundreds of places, where about twenty miles ago were men of wealth, to-day sit gaunt and dejected, without a rag to their backs, and with nothing but the inundations commenced at a little distance from Kai-fung Fu, one of the largest cities of the Province, and in one instance four miles of the solid embankment of stone, brick, sand and clay were swept away, with innumerable moles and fascines. In the case of Ching-chai and Chien-chow no less than

THREE THOUSAND LARGE VILLAGES are stated to have been engulfed in a very few hours, and scarcely any of the afflicted people had time to save themselves, as the breach occurred in the night time, the extent of the disaster will be better understood when we say that an extent of country much larger than the Principality of Wales and much more thickly populated, has been entirely submerged, and the inhabitants drowned or fled. The people so terribly visited cannot number far short of the whole population of Honan, as the Province includes about twenty miles with an area of sixty-five thousand square miles, and the waters of the river now cover between eight and ten miles.

The accounts daily published in the native and foreign papers and in the Peking Gazette, reveal the most horrible suffering for the last several days, and scarcely any of the afflicted people had time to save themselves, as the breach occurred in the night time, the extent of the disaster will be better understood when we say that an extent of country much larger than the Principality of Wales and much more thickly populated, has been entirely submerged, and the inhabitants drowned or fled. Melrose Presbyterians cleared \$97 by a recent tea-meeting.  
Captain Cuthbert is building two or three small crafts in Kingston.  
Tweed has about decided to apply for incorporation as a village.  
Trenton is improving; not a case of drunkenness reported for over six weeks.  
The dwelling of James Tulloch, west Huntington, was destroyed by fire on Sunday.  
Messrs. Crossley and Hunter the revivalists are expected in Belleville on the 19th inst.  
It is expected that the improvements on the Tay canal at Perth will cost \$80,000.  
A Church of England concert at Marston realized one hundred and thirty dollars.  
It is understood that a divorce will be asked for by one of the residents of Napanee.  
Keld's woolen mill at Osceola, Renfrew Co., was destroyed by fire on Sunday.  
The masonic fraternity of Napanee will celebrate at the Campbell house on the 24th inst.  
A tea-meeting will be held in Mt. Pleasant Church, 7th con., Tyndinaga, on the 15th inst.  
Fire in the Canadian Statesman block, Bowmanville, did damage to the tune of \$1,200.  
The Northport mutual improvement society has sixty members and is pronounced a great success.  
The Prince Edward agricultural society had a membership list year of 270. Very small for such a county.  
Lennox Council granted \$300 to Napanee and \$225 to Newburgh high schools; also \$850 in aid of poor schools.  
P. Barton, Napanee, and Mrs. Kennedy, Amherst Island, were fined \$50 and \$100 for infractions of the Scott Act.  
Fish dealers of Cosnes are doing a rushing business this winter. Over 9,000 pounds were shipped during January.  
Mr. Ira Barton, formerly clerk of the township of Sopsishung, died at his house in Demoreville on the 6th inst.  
The Brockville council has purchased a stone crusher and engine in Belleville for 1,400. Deseronto should do likewise.  
The trustees of the Pictou public schools require the teachers to qualify themselves to teach the elements of vocal music.  
Mr. Thomas Carman, of Northport, one of the leading men of the county of Prince Edward, died on Tuesday, aged 73 years.  
Kingston expects an interesting breach of promise case at this spring assizes. These things draw better even than a prize fight.  
Richard Wheeler, aged 68 years, dropped dead on the market square, Napanee, yesterday afternoon. Heart disease is the supposed cause.  
Wellington Babcock has purchased the north part of lot thirty-nine in the 6th con. of Ernestown, for \$2,560. The property is near Wilton.  
Mr. Jas. Abraham, in the employ of Messrs. Downey & Pareson, Belleville, died on Sunday. He was a well known and respectable citizen.

John Bombridge, aged 85 years, was married the other day at Bowmanville to Miss Woods, aged 15 years, three months after the death of his first wife.  
Engineers say that the bridge at Belleville can be built for less than \$100,000.  
Ameliasburg and Hillier will probably take stock in the undertaking.  
Kingston and Belleville are quarrelling, the question now being which is best entitled to the Grand Trunk shops.  
Deseronto may run off with the coveted horse.  
At the annual meeting of the Lennox Farmers' Institute last Saturday, R. Switzer was elected president; Jas. A. Reid, secretary, and W. N. O'Leary, treasurer.  
The S. D. S. of Belleville, called on a bride the other evening when he married Sept. 3d to Mr. David Kerr. It was not until the minister asked for Mrs. Kerr that the family were aware of the marriage.  
It is said a rich pocket has been discovered in the Richardson gold mine near Madoc which is guarded day and night by a posse of armed men. The Campbellford coal find is nothing to this discovery.  
The new steel plate girder bridge over the Otumabee river at Peterborough has been completed this making better connections between the Midland and Grand Junction tracks of the Grand Trunk. Express trains will be run daily between Toronto and Belleville over this line.  
ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? ## A LETTER FROM QUEBEC.

(Translated from the French.)

GENTLEMEN,—I have deferred writing the letter to testify to the benefits derived from the use of your SIMON'S LINIMENT. It has done wonders among all the people who have used it about here.  
I can certify that in every case where I have used it upon myself I have been very well satisfied.  
Mr. N. Mooney, of St. Sylvester, had a bad leg which was said to be incurable. I told him to use Simon's Liniment, and it has effected a complete cure in a very short time. His neighbor, Mr. John Delvin, having received a serious cut on his leg, Mr. Mooney took him the Liniment and having used it, found himself completely cured.  
I have been assured of the cures of these people, and the remedy having become known, it has created quite a demand. People coming as far as 35 miles to procure it for themselves.  
Mr. Wm. Bennett, of St. Ferdinand, has had it some time for himself, and he has since bought it for his friends, who suffer from Rheumatism, and they have all been well satisfied.  
I have never known any medicine to have had such good results about here as Simon's Liniment.  
Hoping that it will prove as satisfactory elsewhere.  
I am, yours truly,  
DAMASE PAGEOT, Merchant.

## CHAPTER XVI.

A cry broke from old Madame Monnier's lips as Gerald entered the gamekeeper's cottage. She was alone by two doors from her early son, who, in a seat by the fire, just pulled out a pipe and took his pipe for a moment from his mouth in ungracious welcome, while the old woman brought forward a chair for the young gentleman, still staring at him with vacant mistrust.

"What's that matter, granny?" said he, putting his hand gently on her arm. "Madame Monnier, who, by the way, looked scarcely older or more weatherbeaten than her son, and the feeble friendliness she usually showed to Gerald was considered an unfattering preference.

This evening, however, something had evidently happened to trouble her weak wife, for she drew herself away from him, mumbling incoherently in a low voice.

"Don't mind her," said the gamekeeper sharply; and he signed to her that her presence was no longer wanted, with an extra wrinkle in his ugly face which caused her to shuffle hastily into the next room.

"What's your business, monsieur?" he then asked.

But that was the very last thing that Gerald would have thought of disclosing to him. So he said he wanted to hear whether his mother's rheumatism was better, and what had become of Babette. At this mention of the girl's name the gamekeeper's little eyes fastened on him; but the subject had not much of its interest to Gerald lately, and although he grew red under Monnier's keen glance, he was not in the least disconcerted by it.

"My mother's rheumatism is no better; she can't expect it at her age. And Babette—why, she's gone away to—service."

"Service?" repeated Gerald, in astonishment.

"Yes; why not? I don't approve of keeping a great sprawling girl idle at home, to have her head turned by some philanthropist fool, while her old father is out tugging to keep her in luxury."

"O!" said Gerald, in quite simply. The gamekeeper's speech had ignored all the facts of the case so completely that assent and dissent were alike out of the question. He wondered whether himself was a "philanthropist fool" alluded to, or whether the term was meant for the stranger he had seen with Babette, and he felt that the latter fear grew stronger that the girl was in some way linked with the man about whom he had such grave suspicions; and Gerald, who had no skill in hiding his feelings, found himself returning the gamekeeper's sidelong looks with a wide stare of mistrust. As soon as he became conscious of this the young fellow started up, and, with an unfeignedly far from pleasant expression, he knew that he had failed as a detective, so he threw off the character.

"Look here," said he, leaning against the high stone chimney-piece and, with a look of the most unfeignedly far from pleasant expression, he knew that he had failed as a detective, so he threw off the character.

"Secre-ry, monsieur!" growled the gamekeeper. "I should think if your father is satisfied as to her safety, that is enough. And it is very good of you to interest yourself about her, but she is in better hands than—yours." And he looked straight at Gerald with mean and impudent suspicion in every line of his face.

The young man grew red, with alarm as well as anger. He thrust his hands into his pockets and faced the old man steadily.

"Well, I can't make any speak," said he after a minute's pause. "But I know some body who you. You know very well it's nonsense to pretend you suspect my motives, because you don't never had a motive in my life that wasn't clean compared to the best of yours. For you've something more to account for than my going away. I saw you sneaking along the road from Calais on the night of the murder, and it's my belief you know something about it, you infernal old fox!"

Gerald had meant to keep this suspicion a dead secret; but the sight of the gamekeeper, doubled up as if to keep not only his mind but his person as much to himself as possible, blinking and squinting at him cautiously in the light of night, so irritated the young man that he felt bound to let the accusing words almost against his own will.

Monnier stuck to his lean pointed chin, pursed up his blue lips, and blinked at his visitor more persistently than ever, but without giving any intimation that his sensitive nature was wounded. Gerald's hands twitched in his pockets during the rather awkward silence. Then the injured one nodded his head slowly two or three times with a crackling laugh of generous contempt.

"It's very easy to come here," he began mockingly. "And to say hard words to a poor old man when you find that his daughter is no longer about to say soft ones to me. And you young gentlemen think poor men were only made for you to kick and poor women for you to kick and abuse, as if on the point of illustrating part of his theory. "But there is a heaven above, monsieur."

"Yes, and there's something else underneath," interrupted Gerald hotly, "and you'll get what you deserve some day, if you don't now."

"The saints watch over the innocent, monsieur," said the gamekeeper, with grotesque resignation, and you and your flaunting madam won't get much out of your spying visits here."

Gerald looked at him puzzled. Had Madame de Lancy been so ready to let him fall, as he freely said he himself had done, in extracting anything worth hearing from the leather-bound "rascal"? The bewilderment on his face encouraged Monnier, who went on in a much more assured tone.

"I should like to know what your patron Mr. Buresford would say, if I was to go and complain of your hanging about here after your girl? Why, if he comes to get you turned out of his house, that's what you'll get."

His righteous indignation carried him just a little too far. He said, though simple enough to be deceived by the blue-eyed

young girl, had seen through the craft of her less fascinating father. So he said quietly:

"I've changed your tune very suddenly, Monnier, after thanking me so warmly as you did six weeks ago for my kindness to your old mother and father. As you've grown so suspicious, I'd better give you a chance of making a proper complaint to Mr. Buresford."

For the first time the man was disconcerted. His withered skin took a bluish tinge, and his knobby hands clutched the wooden chair.

"Come, Monsieur Gerald," said he after a few minutes' pause, with a futile effort to be genial, "old friends like you and me don't quarrel except in fun. I get lonely and fretful now o' nights—I miss my daughter, and when Babette was at home she always spent her evenings at the cabaret."

"Far be it from me to say," said he, "that you are to Mr. Buresford. It was all a boy and girl friendship between you and Babette, I know; though perhaps the old patron, being an astute, might not see so innocent it was."

From under his shaggy eyebrows he looked Gerald over, giving no sign of being intimidated by this suggestion. "I think he will see the matter in the right light," he said steadily; "at my rate, I'll take my chance of that."

Turning quickly, with a strong sense of having been enough, he turned away, and the young man was already at the door, when he felt the grip of a sinewy hand upon his arm. Monnier's face was glaucous, he was writhing with grief and anxiety as he detained his guest.

"You wouldn't say anything to get a poor man into trouble, would you?" said he, with a most unattractive whine of blustering entreaty. "I've been a good servant to Mr. Buresford, but a word from a young gentleman so high in his coming as you, monsieur might do me harm, which I'm sure I've never deserved. And on mere suspicion, and such childish suspicion too, you would surely never harm a poor old man."

Gerald tore himself away, opened the door, and let himself out, without one more glance at the blinking grey eyes that watched him furtively in the darkness as he dashed down the narrow red-tiled garden-path after the gamekeeper. As he turned the corner, on his way back to "Les Bouleaux," he thought he heard a weak voice quavering on his name: "Monsieur Gerald!"

Monnier's words, which he had believed to be the work of his fancy, until he heard the cottage door slammed by the irritated gamekeeper, and immediately after that the sound of a foot coming on behind him. He topped, looked round, and found himself face to face with old Madame Monnier. Her manner was more wavering and without any sinister gleam, and she looked at him with a look of the most unfeignedly far from pleasant expression, he knew that he had failed as a detective, so he threw off the character.

"Look here," said he, leaning against the high stone chimney-piece and, with a look of the most unfeignedly far from pleasant expression, he knew that he had failed as a detective, so he threw off the character.

"Secre-ry, monsieur!" growled the gamekeeper. "I should think if your father is satisfied as to her safety, that is enough. And it is very good of you to interest yourself about her, but she is in better hands than—yours." And he looked straight at Gerald with mean and impudent suspicion in every line of his face.

The young man grew red, with alarm as well as anger. He thrust his hands into his pockets and faced the old man steadily.

"Well, I can't make any speak," said he after a minute's pause. "But I know some body who you. You know very well it's nonsense to pretend you suspect my motives, because you don't never had a motive in my life that wasn't clean compared to the best of yours. For you've something more to account for than my going away. I saw you sneaking along the road from Calais on the night of the murder, and it's my belief you know something about it, you infernal old fox!"

Gerald had meant to keep this suspicion a dead secret; but the sight of the gamekeeper, doubled up as if to keep not only his mind but his person as much to himself as possible, blinking and squinting at him cautiously in the light of night, so irritated the young man that he felt bound to let the accusing words almost against his own will.

Monnier stuck to his lean pointed chin, pursed up his blue lips, and blinked at his visitor more persistently than ever, but without giving any intimation that his sensitive nature was wounded. Gerald's hands twitched in his pockets during the rather awkward silence. Then the injured one nodded his head slowly two or three times with a crackling laugh of generous contempt.

"It's very easy to come here," he began mockingly. "And to say hard words to a poor old man when you find that his daughter is no longer about to say soft ones to me. And you young gentlemen think poor men were only made for you to kick and poor women for you to kick and abuse, as if on the point of illustrating part of his theory. "But there is a heaven above, monsieur."

"Yes, and there's something else underneath," interrupted Gerald hotly, "and you'll get what you deserve some day, if you don't now."

of a group of ladies, who pulled her about like a doll and asked her questions about the intelligence of a class of girls, and found the unhappy little foreigner very amusing. At last her patience gave way when a well-meaning member of Madame Fournier's asked her indulgently whether she was not enchanted to find her appointed husband so good and so amiable.

"No, madame," answered Peggy with simple aversion, while her cheeks flushed with the intelligence of a class of girls, and found the unhappy little foreigner very amusing. "But I must see Mr. Buresford, and at once!"

"Unfortunately that is impossible," said a wiry woman from a long way below her. And the tiny housekeeper, anxious to recover her lost property, the way to the inner salon, to which the lady was advancing. "Mr. Buresford has already been excused to see me, and I cannot allow him to be disturbed."

Some watch-dog instinct had told her that the tiny housekeeper, this small stranger would be an unwelcome one.

"I must insist, I am afraid," said Madame de Lancy, "I have come on a matter of life and death."

She made a step further toward the door of the inner salon, when it was opened from the other side, and Mr. Buresford himself gently tried to push Miss M'Leod out of the way.

"Come in here, madame, if you please," said he, in a voice that was scarcely steady. And Miss M'Leod felt, as she glanced up at the cruel handsome mouth and steady glowing eyes of the strange lady, who seemed to sweep her out of the way as if she had been a fly, that her instinct of mistrust was a right one.

CHAPTER XVII.

As soon as they were alone together in the little room, the tiny housekeeper, who had been on the back of a chair near the fire, and begged Madame de Lancy to take it.

"Thank you," said she, seating herself on an ottoman that was nearer to her own armchair. "I would rather sit where we can see each other. A warren has been issued in England for the arrest of the man Blair, on suspicion of his being the murderer of Mr. Shaw. Now, I know and you know that the man Blair was quite another person—whether this was a random shot or not, its effect on the paralytic was sudden and strong. I will try to help me, not to be guilty of a crime to justice, but to prevent his crime from hurting the innocent."

"Really, I am not in a fit state of health to bear all this exciting talk—"

"You are strong enough to hear one thing: you know that the man Blair is innocent, and to befriend Gerald Stanton actively. On learning the death of the man on whom he relied, Blair has not dared to show himself, and therefore he is under suspicion both of the theft and of the murder. Gerald remains in his old position of underpaid clerk. The wrongs of these two men must be righted."

"Very likely, madame, but it's not my work."

"The paralytic's manner grew cooler and drier as the lady became more excited. "Then it will be mine."

Mr. Buresford slowly shifted his position in his chair, and looked back at the tiny housekeeper. "Most kind and womanly. If talking will do you any good, I am sure you will do your very best for them."

"Believe me, it is not so much misery of you to do the work for me."

"I never guessed a riddle in my life, madame, so if you will explain your melodramatic theory, we shall get over the ground quicker."

"Very well then. Your philanthropy in keeping Gerald Stanton here is a shame, you have no personal regard, no pity for him whatever. You took him up merely to keep him off the track of his father's murderer."

Her words might have been the ravings of a madwoman for all the effect they had on the paralytic. There was a pause before he answered her.

"I'm sure his father's murderer ought to be very much obliged to me."

Madame de Lancy was not more easily disconcerted than he.

"You have asked nothing, madame?"

"I ask you, first, to recompose Gerald Stanton for his six long years of exile and misfortune, for his clouded name, for his services to you—by giving him your daughter in marriage. I ask you to find some means—I don't care what means—to rescue the man Blair from his position as a suspected thief and murderer."

"You demand a certainly modest. And what is to be my reward? The satisfaction of having done two good deeds: I am not philanthropic. Let M. de Breteuil know what my demands are, and ask him whether it would not be better to accede to them."

"It is ten years since you were the mistress of M. de Breteuil—you see my knowledge of your history is as extensive and more accurate than yours of mine—may not your influence over him have waned since then?"

"My power over him has not. Ten years ago I knew one desperate secret of him; now I know two. Shall I give you the details of both? I have no doubt you know enough about them to be able to judge of my accuracy."

Madame de Lancy sat upright and spoke calmly, as if she were preparing for a statue of justice to be set up by the side of the door was hung roughly open by Delphine, and she entered, in a low voice, and with a look of the most unfeignedly far from pleasant expression, he knew that he had failed as a detective, so he threw off the character.

"I am afraid I have come at the wrong time, Gerald," said the visitor, in a low voice, glancing at the crowd of gaping faces

"By affecting those in whom you have an interest?"

"An interest? What interest?"

"Shall I tell you?"

She could only see the lower part of his face, the curved nostrils, the drooping white moustache, the reverend white beard; but as she looked, trying to define the lips half hidden by the moustache, she drew back her head with a slight start, and a cry, which she tried to stifle, broke from her.

"I should like to see the green shade that was over his eyes: the light from the lamp made him look like a man who had retired steadily, and watched the change which instantly took place in her look and manner. Her confidence gave way to doubt, doubt to utter confusion; after a few moments silence her eyes fell and her head drooped.

"Won't you explain yourself, madame?" said Mr. Buresford abruptly. "You were going to be kind enough to tell me the nature of my interest in Mr. Shaw's murderer."

"I made a mistake," said Madame de Lancy, rising hurriedly. "I confess I felt convinced I recognized in you an old butler acquaintance of M. de Breteuil's, and your confession of a past history seemed to confirm that."

"An acquaintance is not necessarily an accomplice, madame."

"As I said, let your manner seem to me suspicious when I spoke M. de Breteuil's name. Every man has secrets. I among the others. You judge very hastily."

"And apologize very humbly. I hope you will forget and forgive my intrusion, monsieur."

She held her hand down to him in winning, gracious apology. The austere old man gave way a little.

"A lady's kind words of kindness of heart will get the better of her judgment," said he indulgently. "You take a very warm interest in Gerald, madame."

"You do not take her proffered hand, but turned to a chair. Madame de Lancy, however, bowed, and walked toward the door.

"I have had an adventurous youth and I am passing into a dull middle age: two good reasons for my being grotesquely and romantically kind-hearted—by the way, she starts. After this abortive outburst, I have no doubt the volcano will slumber peacefully for a month or two at least."

She laughed, in a most light-hearted and charming manner, and wished him good-evening, as if her errand had been about bouquets.

And Mr. Buresford chuckled civilly in return, as if any errand would have been welcome that brought him such a fascinating guest. But as the old girl left both faces more so, soon as she was out of the room; and both grew dark and hard, as if the interview had brought each in contact with a new enemy.

In the outer salon Madame de Lancy had some difficulty in escaping from old M. Fournier, whose elaborate compliments and questions she received with the manner of a tired woman. He was not alone, but with her uncle called by his father, and then he stood by rather shyly, without looking at her. ## The Common Lot.

There is a place no power can reach. There is a place no eye can see. There is a chain no power can break. There is a place no power can reach.

Sooner or later that time will arrive, that place will wait for your coming, that chain must bind you in helpless death, that sleep must fall on your weary eyes, that every year go unthinkingly to their fate, and thousands more lengthen out their days by heedful, timely care. For the falling strength, the weakening organs, the fading blood, Dr. Pierce's Golden Medical Discovery is a wonderful restorative and a prolonger of strength and life. It purifies the blood and invigorates the system, fortifying it against disease. Of druggists.

He who learns the rules of wisdom without conforming to them in his life is like a man who labored in his fields but did not sow.

Famous Women.

It is a significant fact that most of the women who have achieved fame in art, literature, or science, have been of the same type. This shows that the mind is capable of the severe and continued application necessary to creative work, unless the body is in a state of perfect health. Aspires to fill an exalted place among her associates, must be free from nervous debility and female weakness. Dr. Pierce's Favorite Prescription will banish them, and it is warranted to restore those functional harmonies which are indispensable to health. As a specific for all those chronic weaknesses and ailments peculiar to women, it is unequalled.

There is this difference between happiness and wisdom: he that thinks himself the happiest man is really so; but he that thinks himself the wisest is generally the greatest fool.

Great Little Men.

Some of the greatest men that ever lived were of the littlest stature. It is a pity that the world is so full of giants and dwarves. The reader will readily recall many instances. Very small are Dr. Pierce's Pleasant Purgative Pills, but they are far more powerful than any other pills of the kind. They are gentle and safe, and cause constipation. For liver, stomach and bowel derangements they have no equal.

The Austrian Crown Princess Stephanie, while visiting her father recently, ran the hot and cold water, and she was laid up for a week. She should hire a maid.

Ocean Steamship Passengers.

via New York people take the Erie railway, as it is not only the shortest and best line, but lands people close to the pier of the leading steamship companies. In buying tickets, be sure to go to George G. Clark, of Babcock & Beach, England, watches for mackerel from a high bluff near the hotel, and backs and points when a school appears.

# TWO CHRISTMASSES

## THE MYSTERY OF THE HAUNTED GARRET.

CHAPTER VII.—(CONTINUED.)

He seems almost to have recovered his old gaiety and good spirits, or else he is playing a part to fool me, for I can't take it. I hope I do truly love and believe that he is beginning to forget that old mad dream of the spring.

"Won't you come in to tea, Joan?"

It is Leslie's voice, shrill and clear and a little sharp if fancy, but she isn't seriously vexed because Hugh and I spoke to each other while she was talking and laughing with Kathleen and Doctor Nesbitt. I have not been in the room since Aunt Willie's death—they never sit in the oak parlor till they begin fires in September. I did the blue room till they give up fires in May. The table is spread as beautifully as ever, with fresh home-made bread and butter, cream and strawberry jam. Leslie pouts out tea, sitting in my old place—a pretty little figure in her black gown and glittering ornaments; but Hugh saves Nesbitt to attend upon her, while he takes care of me.

After tea I find that it is time to set out on my journey homeward. I half expect Doctor Nesbitt to offer to escort me, as I suppose he must soon be going back to his office, but it is not to be. He only looks at me in the hall, though Leslie pouts a little, and kisses me rather coldly, wishing me good-night in the porch.

The sun has set, there is a warm ray flush in the west yet, in the midst of which burns one great solitary golden star. In the east the colours are blue and silver, where the harvest moon comes climbing over the woodland, just showing her broad solemn disc over the tops of the sleeping trees.

As I walk beside me over the long gray moonlight field, but though he says nothing for a long time, I am conscious of some strange intensity in the atmosphere, of some odd presentiment, such as when I look upon an earthquake or some awful storm.

"Joan," he says at last, speaking in a seriously quiet way, "I read the poem."

"Yes."

Silence again for a hundred yards or so—no sound but the sound of our footsteps on the short dry grass.

"Joan, why were you crying over it?"

"I don't know."

"Joan Lindlow, tell me the truth once for all in Heaven's name! Did you ever care for me?"

"What is the use of—of speaking about it now?—the best for you and best for me."

"The use! The use of it would be that it would make me so intolerably happy that I would pray to die—yes, die—here, this very moment, while the blessed words were on your lips!"

"Hugh, you forget Leslie!"

"I forget everything but you, Joan. Do you love me?"

We have come to a stand-still in the middle of the moonlight meadow. He is holding both my hands loosely, and I feel his eyes meet mine. My face has grown as white as death before that long look has ended.

"Hugh, you must let me go!"

"Let you go?—now when I know you love me? Joan, do you think I am mad?"

"I know that you belong to another woman; and—and you should never have forgotten it."

"I belong to you. My heart is yours. Feel how it beats; even now it throbs for you, Joan—for you—for you!"

"Then why do you wreck the happiness of that poor girl?"

"I thought you hated me, and that if I married her I might forget you—and in time. And only to-day I thought I had conquered myself—I thought I was beginning to forget you. But the moment I saw you I knew I was more mad about you than ever; I could not endure the sight of her, or the sound of her voice."

"Poor Leslie! Poor unfortunate child!"

"You Leslie! Poor—why don't you pity me? Oh, Joan, my love, my darling, is it thus that I find you with her heart's mate, and—and you should never have forgotten it?"

Is it thus indeed? As he holds me in his arms I am brief, faint, as our lips meet for the first time. I feel that the world can hold no greater pain, no greater bliss, no more exquisite torture than I am suffering now.

"Hugh, have mercy on me and—and on yourself, and let me go!"

"Not yet—not yet! Oh, Joan, I cannot give you up!"

"There is no question of giving up," I answer, all my old courage coming to me at last, as I push him gently from me. "I no more belong to you or to her than I do to you were Leslie's husband. We must forget this—this madness. We must try to forget everything but that poor child."

"Are we to sacrifice two lives for the sake of one?"

"For the sake of the right, Hugh. It was our own mad mistake—our own blind miserable folly. We have no right to make another suffer for it."

"But she must suffer—if it she marries me!"

"She must not suffer. That must be your care, and mine. The very fact that I shall make a pleasant husband for another woman, Joan," he says, with a bitter smile. "Do you think you will be doing her kindness by forcing me to marry Leslie?"

"You cannot forsake her now," I retort, wondering if indeed it can be right or wise to force him to fulfil so mad a compact. But then Leslie's peace of mind is involved, and he has asked her to marry him, deliberately, while he carries on this torture to me to think that he should suffer; but I deserve it all for my blindness, for my selfishness, for my pride.

"In any way or other she will bless you for thrusting me back to her!" he goes on, perhaps reading my thought. "Would not a little pain be better for her now than a life spent with a man who was in love with another woman?"

"Will you forget me—you will soon care more for your wife than for any one else in the world. I have known such things happen a hundred times."

"But that would be wrong for my sake would it not? But our lives—if we were so mad as to throw away everything—truth, honour, self-respect—for the sake of a person

agreeable. Sometimes I feel half inclined to give him!"

"If you give him reason?"

"I do not give him reason. If any one has a right to be cross, it is poor Al—Doctor Nesbitt."

"I do not see what right Doctor Nesbitt has to be cross with you?"

"Oh, you think of me one but Hugh!"

"I think of you, Leslie; and if you were really Doctor Nesbitt's friend, you would love me."

"I don't care. I am a privileged person, or else I should feel very much inclined to tell you to mind your own business!"

"I consider it my business to warn you when I see you doing what I think danger to you and wrong."

"Well, I don't," she says, her pretty face red and angry. "I am quite well able to take care of myself."

"I am afraid you will find Hugh to do something desperate."

"Take care you don't drive him to it!" she retorts, and walks away out the room and out of the house.

I am sorry she has taken my reproach in this spirit, and I hope I have not said too much. I try to recall my words, and I cannot see that I have said anything so much as to hurt her. I feel a good deal over the result of my interference however, and when Leslie comes back, I tell her of it. A day or two afterwards, and I know as cordially as if nothing had happened, I feel quite safe.

The autumn days pass very quickly—very monotonously for me, as far as my daily routine at the hospital is concerned. I am not a day like another, but my institution of the kind. But, if my life is dull to weariness, my heart is not equally shut, though I have tried to keep forward to a time when even this my quiet shall not be pain to me if I know my darling to be happy and contented, and no longer suffering because of me.

The weather is all that could be desired for a wedding, calm and sweet and still, as blue as the bride's dress, and the growing more glorious in their orange and crimson tints every day; even in our hospital wards the air brings sweet from the nighonnette outside the windows and from the late-blooming roses and stocks and the bushes of lavender and rosemary. Leslie has gone to stay at the Rectory, from where she is to be married, and to my great satisfaction Doctor Nesbitt has gone up to his house, but I fancy the business is an excuse to be out of the way on Leslie's wedding day.

Two days before the wedding old Dorothy seems to begin to go wrong, as she is confined to her bed, and "very bad," as an attack of bronchitis, and, as the old woman has more faith in me than in the Doctor, I walk over to Gray's every evening to see what I can do for her.

The walk through the familiar fields refreshes enough it makes me feel very well. I wear my usual coat and hat, and my pastures, that fir wood, that quaint old house! How long ago they seem, those happy days! I feel as if I were an old man as I push open the porch door and walk into the dusky wainscoted hall.

There is no one in the oak parlor. Hugh's study is empty, the table, which has been drawn to the fire, is pushed back, and the chair, no sound or voice or footstep in the room. I make my way to Dorothy's room, and find the woman propped up with pillows in her high-backed chair, with its ancient chintz curtains; there is an enormous fire in the room, and I am sure the windows have not been opened within the memory of man.

"It does me good to see your bonny face, dear," she says, when I have inquired about her and prescribed for her, and I have taken my seat, at her desire, on the foot of the bed. "And there's more than me has been here tonight of it in this house."

"You'll soon have a bonnier face here than mine ever was, Dorothy."

"I never could see the beauty of it. But other did, and the old woman shakes her head mysteriously."

"Nobody could see Miss Leslie without loving her, Dorothy."

"Doctor Nesbitt couldn't, Miss Joan."

"You cannot blame him. I don't think I never saw a prettier face."

"But he has been so busy with his business that he has not had time to see her, and she is bringing him here, and singing with him, and flirting with him all day long!"

Dorothy had different ideas from ours, where they do not think it any harm to do such things.

"I don't know what is harm and what isn't, it is harm to let a young man go to your feet and kiss your hand, and your lips too, and you going to be married to another?"

Miss Joan, who knew right from wrong as well as I do, and better, and who I tell me that is right, or you won't persuade me into it."

"I cannot believe Miss Leslie capable, I begin, very much shocked."

"Miss Leslie could buy and sell you for cleverness, Miss Joan, you are the best. She's a clever lady, young as she is, and knows what she's about better than you or I either. Many a time I was eager to tell her what was going on behind my back, but I was afraid of him; he was in that humour he'd have killed the Doctor. Miss Joan, as soon as he turns round, he's all right, and he's all right, and he's all right."

Dorothy looks at me from under the many frills of her night cap.

"I don't know how he is, Miss Joan."

"What do you mean?"

The old woman raises herself on her elbow and looks at me with her keen, old eyes. "He's full of tears!"

"He fretted greatly for his mother, Dorothy."

agreed. Sometimes I feel half inclined to give him!"

"If you give him reason?"

"I do not give him reason. If any one has a right to be cross, it is poor Al—Doctor Nesbitt."

"I do not see what right Doctor Nesbitt has to be cross with you?"

"Oh, you think of me one but Hugh!"

"I think of you, Leslie; and if you were really Doctor Nesbitt's friend, you would love me."

"I don't care. I am a privileged person, or else I should feel very much inclined to tell you to mind your own business!"

"I consider it my business to warn you when I see you doing what I think danger to you and wrong."

"Well, I don't," she says, her pretty face red and angry. "I am quite well able to take care of myself."

"I am afraid you will find Hugh to do something desperate."

"Take care you don't drive him to it!" she retorts, and walks away out the room and out of the house.

I am sorry she has taken my reproach in this spirit, and I hope I have not said too much. I try to recall my words, and I cannot see that I have said anything so much as to hurt her. I feel a good deal over the result of my interference however, and when Leslie comes back, I tell her of it. A day or two afterwards, and I know as cordially as if nothing had happened, I feel quite safe.

The autumn days pass very quickly—very monotonously for me, as far as my daily routine at the hospital is concerned. I am not a day like another, but my institution of the kind. But, if my life is dull to weariness, my heart is not equally shut, though I have tried to keep forward to a time when even this my quiet shall not be pain to me if I know my darling to be happy and contented, and no longer suffering because of me.

The weather is all that could be desired for a wedding, calm and sweet and still, as blue as the bride's dress, and the growing more glorious in their orange and crimson tints every day; even in our hospital wards the air brings sweet from the nighonnette outside the windows and from the late-blooming roses and stocks and the bushes of lavender and rosemary. Leslie has gone to stay at the Rectory, from where she is to be married, and to my great satisfaction Doctor Nesbitt has gone up to his house, but I fancy the business is an excuse to be out of the way on Leslie's wedding day.

Two days before the wedding old Dorothy seems to begin to go wrong, as she is confined to her bed, and "very bad," as an attack of bronchitis, and, as the old woman has more faith in me than in the Doctor, I walk over to Gray's every evening to see what I can do for her.

The walk through the familiar fields refreshes enough it makes me feel very well. I wear my usual coat and hat, and my pastures, that fir wood, that quaint old house! How long ago they seem, those happy days! I feel as if I were an old man as I push open the porch door and walk into the dusky wainscoted hall.

There is no one in the oak parlor. Hugh's study is empty, the table, which has been drawn to the fire, is pushed back, and the chair, no sound or voice or footstep in the room. I make my way to Dorothy's room, and find the woman propped up with pillows in her high-backed chair, with its ancient chintz curtains; there is an enormous fire in the room, and I am sure the windows have not been opened within the memory of man.

"It does me good to see your bonny face, dear," she says, when I have inquired about her and prescribed for her, and I have taken my seat, at her desire, on the foot of the bed. "And there's more than me has been here tonight of it in this house."

"You'll soon have a bonnier face here than mine ever was, Dorothy."

"I never could see the beauty of it. But other did, and the old woman shakes her head mysteriously."

"Nobody could see Miss Leslie without loving her, Dorothy."

### TO THE TOWN'S PEOPLE.

To the Editor of The Tribune.

DEAR SIR:—A few weeks ago I noticed a communication in reference to lighting our streets with gas, and with the writer I quite agree that our streets should be lighted. I believe the Deseronto Gas Company made an offer to light so many lamps for the year for the sum of \$200. I am sure we should not grumble at the price considering what the village of Napanee is paying for light. We are an enterprising town full of life and progress and should not be behind our neighbors when we have such an offer for such an accommodation. If our merchants are enterprising enough to light their places of business, we, the people, should be willing to see our streets lit up. If you will give the matter some consideration, Mr. Editor, the people, I am sure, will fall into the idea and when the moon is steady we will have light and our town will have an advanced appearance.

### OUTRAGEOUS CONDUCT.

To the Editor of The Tribune.

DEAR SIR:—On Saturday, 11th inst., not far from Deseronto, while a mother and daughter were engaged getting dinner, the husband came in with fury in his eye about some trifling matter which happened the day before. He came swearing, stamping, overturning the table, tearing the table cloth, &c. His wife remonstrated when he turned on her, choking her and pulling her hair. A lady spectator was so frightened that she could do nothing. His daughter interfering he abused her and his other children. His family are in mortal terror of their lives, and at the same time a somewhat lonely place, it is not improbable that there will be a tragedy. It is said he has had to run from three or four different places about his family after spending his wife's property through carelessness. Now, Mr. Editor, should not his name be published? Next time his name will be seen in large print if I can manage it.

### INDIGNATION

### ADDRESS AND PRESENTATION.

Mr. R. E. Stafford, having accepted a position with his brother in Oswego, left that city on Monday evening last, leaving him the good wishes of many friends in Deseronto and vicinity. Having been long connected with the Rathbun Company Band, the members of that popular organization decided to testify their friendship and appreciation of his services in a practical manner. Accordingly all the members of the Band on Friday evening last waited on Mr. Stafford at his home when a flattering address was read by Mr. Moore, and a handsome gold pin, which took the form of a representative carpenter's plane, was at the same time presented to their departing comrade. We append the address and reply.

### ADDRESS.

Deseronto, Feb. 10th, 1888.

DEAR SIR:—We, the members of the Rathbun Company Band, learn with regret that you are about to leave us for another place across the line. We beg to record the acceptance by you of the accompanying gold pin as a slight testimonial and token of the esteem in which you are held by the Band. We regret very much that you are to leave us for your connection with us has been one of straightforward and satisfactory dealing. As our Treasurer you have acted honestly and fairly, and you have attended to our business punctually and ably and it will be hard to fill your place. The Band wishes you every success in your new situation, and we trust the door of prosperity will be always open to you; your wish always let in the rays of health; and your blinks always be closed against sickness and all adversity. If at any time you should return to your native town you will always find a hearty welcome from the Band. Again wishing you every success, we remain yours on behalf of the Band. (Signed).

L. W. HELL, Jr., President.  
THOMAS MOYSE, Fin. Sec'y.  
SIDNEY T. CHOWN, Cor. Sec'y.

### REPLY.

TO THE RATHBUN COMPANY BAND.

Gentlemen:—In reply to your address and kind presentation, I would say, it is with regret that I leave you, as I have lived a long time among you and have made many friends. I can say I find it hard to part, but I do so willingly, and I trust you will all be successful in your undertakings and hoping prosperity will always be yours. Every time that I look at your present I am sure it will remind me of you, and as I intend taking THE TRIBUNE, every time I see your advertisement in it I will wish you success, and if I ever come back to Deseronto I want to be a Band Boy. Thanking you kindly for this handsome pin.

I remain, yours,  
R. E. STAFFORD.

### TOPICS OF THE TIMES.

The corset war which has been raging for so long a period in the "Woman's World" column of the Globe has drawn out every conceivable argument, commendatory and in support of tight lacing. Physicians, philosophers, the novelist and the philanthropist have each in turn taken the side of the corset and have been the cause of much suffering from the prevalent and pernicious custom. At the same time the other side of the question has received from its votaries all

that could possibly be claimed for it. Among the many strong incalculable arguments advanced in its favor, not few possessed even the merit of consistency; indeed, throughout the whole controversy there was an apparent undercurrent of evidence sufficient to indicate that the governing motive in perpetrating this tortuous habit, spring largely from a desire to draw admiration from the other sex. If there are any reasonable grounds for this latter assumption, then much good may come of all this public discussion, for, at least, one important fact has been amply demonstrated; that the steeper sex generally are not in sympathy with the fashion, but rather regard it with genuine disfavor any tendency to the "swamp like" waist. It may be assumed he objects on general principles, chiefly, perhaps, from a livelier appreciation for harmony of proportion, and a strong inherent antipathy to all artificial aids to fashion's follies; more probably, however, because of a finer conception of the laws of nature, and the eternal fitness of things which would be likely to induce him to contemplate with decided contempt the geometrical incongruity manifestly apparent in the proportions of an average corset sleeve to a fifteen inch waist.

We still hear frequent complaints about the "social dullness" of our village. Unfortunately they are not without sufficient reasons to justify them. It has come to be a proverbial fact, that the social element in Deseronto is refrigerated, and that a social difficulty to arrive at any element that would get up a temperature necessary to thaw it out. Of course we have not the advantages of larger towns in the way of theatres, philosophical societies, social assemblies, &c., but we have the facilities for all sorts of out-door amusements, in rolling "swampy" young people themselves are largely to blame for much of the "dullness" complained of. Of a surety, a young man of old age with its crippling associations, has overtaken the generation before its time. Oh, for some of the spirit of the past! I do remember, when I was a young gallant and fur clad cavalier, disposed joyously, night after night on icy arena, to times the size of "Barnhart's," or per chance indulging in rollicking "swampy" "night light" within the walls of some hospitable village residence. These things are now but rarely heard of, and we are left to the conclusion that the spirit of the age has departed from Deseronto. Surely among so many well-to-do young men, maidens some effort could be made towards reviving the time honored, invigorating and pleasure abounding recreations.

I was considerably amused the other day while listening to a fellow citizen, who was condemning in pretty strong terms the method pursued by one of our church choirs, of frequent and unexpected excursions into their singing at the Sunday services. He explained that as congregational singing was particularly desirable, it was highly important that choir and congregation should be in sympathy, so that the exercises would be enjoyed by the participants, and become a pleasure instead of a service. But when a meek and unassuming worshiper, intent only on aiding to the best of his weak ability in the general praise, suddenly finds himself sustaining the part of leading soloist, it is rather too much for his modesty, and he forthwith subsides in considerable confusion, only to whisper the remaining verses. I at once tendered my sympathy having been there myself, but could only suggest that the best way to avoid such a predicament was for him to join the choir and become posted.

## TYENDINAGA RESERVE.

From Our Own Correspondent.  
Miss Kate Marache has been suffering from a severe cold for some days and in consequence was unable to attend to her duties as teacher at the Mission school.  
We congratulate the newly organized Agricultural Society of the Reserve on the election of its first president Thomas Blizard, a man who has for years been a member of the Township Society, and besides is one of the best practical farmers amongst us.  
Mismanagement of the coal stove at the eastern school house created a chill and subsequent dismissal of the scholars for a day last week. Protect your coal and your fire will start easily.  
The Reverend R. S. Foran, R.D. Rector of Adolphus, is announced to preach at All Saints Church on Sunday afternoon the 19th inst.  
Miss Emma Lott who has been alarmingly ill, is now convalescing.  
Services in Christ Church every Wednesday morning and at All Saints each Friday during the season of Lent.  
We are sorry to hear that Mr. James P. Brant is still suffering from the effects of a fall which she had made time since by which she sprained her arm.

## KINGSFORD.

From Our Own Correspondent.  
Mr. Thomas Seasmith has returned home from Big Rapids, Michigan.  
Mrs. Schuemaker who has been visiting her sister, Mrs. Abbott, for some time, has returned to Oswego, N. Y.  
Miss Annie Nash, of Caryville, has been visiting her friends here.  
Mr. & Mrs. Wm. Wilson, of Camden, were visiting their relatives here last week.  
A large number of invited guests assembled at the residence of Mr. Wm. McCullough on the evening of Wednesday the 8th inst., for the purpose of witnessing the marriage of his daughter, Miss Lizzie McCullough to Mr. William Norman White-man, son of Mr. Joseph White-man.  
The ceremony was performed by the Rev. J. V. Foster, Incumbent of Selby. The bride's sister, Miss Maggie McCullough, was bridesmaid and Mr. James White-man, the bridegroom's brother, acted as best man. The wedding presents were very handsome, numerous and costly. The happy couple left for Toronto and the west on their wedding tour. We wish them every happiness in conjunction with their hosts of friends.  
A handsome fox horse and cutter with fine black robes passed through our village on Sunday going north. This rig has often been observed before, and may success attend his northern journey.  
Mr. Grange, our teacher, has recovered from his recent illness and the school is again in operation.  
Mr. Thomas Waters has purchased Mr. Matthew Jordan's farm on the 16th concession Richmond.

## MARYSVILLE.

From Our Own Correspondent.  
Mrs. Chas. Scanlon, after spending a month with friends in the vicinity of Tweed, returned home last week much improved in health.  
D. McCreedy has recovered sufficiently to be able to visit her father's home in Hastings a visit in order to have a rest, and recuperate.  
Mr. Ed. McGurn who chopping in the woods recently had a finger amputated accidentally.  
Mr. Matthew Ryan, of Midland, Ont., who was down to Napanee to attend his father's funeral, was in the village on Monday.  
At an impromptu dance in town one night recently, the floor gave out and a number of the dancers were precipitated into the cellar. When a sign was given for a light to come the slain Boniface responded promptly of course with the lantern on his arm.  
An old and much respected pioneer of this township, in the person of Mr. Michael Ryan, passed away at Napanee on Friday last, at the age of eighty four years. He came to this place from the county Tipperary, Ireland, when young and although being a well educated man, he followed farming until a few years ago, when with his wife he retired to a quiet home in Napanee. In early times here he used to teach school and look after his farm at the same time. His wife aged seventy-nine years passed away about a year ago. He was the father of a large family of which Mr. M. Ryan now of this place is a member.  
Admiral Denis, "A gallant knight from the North," with a view towards increasing the strength of Her Majesty's navy, is engaged in hauling ships knees to a town on the bay shore, and with a thought for the poor tired horses, he takes a short road to the shore but takes a roundabout course home, and halts on the way, he says to give the poor horse a rest, but rumor saith otherwise. Local knights do not look with favor on this bold invasion of their territory, so beware, Admiral.

## PROVINCIAL FINANCES.

The estimates for 1888, amounting to \$2,980,708.41, were presented in the Legislature on Monday. As compared with the following estimates of last year they show the following increases:  
Civil Government.....\$ 5,030 00  
Legislation.....2,850 00  
Education.....6,850 00  
Public Institutions Maintenance 43,168 25  
Hospitals and Charities.....7,567 68  
Maintenance and Repairs Gov't Buildings.....6,396 43  
Public Buildings, Repairs.....3,950 50  
Charges on Crown Lands.....5,960 00  
Refund Account.....23,951 97  
Total.....\$108,448 40  
The following are the decreases:  
Administration of Justice.....\$ 6,610 75  
Immigration.....2,150 00  
Agriculture.....2,400 00  
Public Works, Repairs.....3,665 00  
Colonization Board.....2,520 00  
Statute Consolidation.....12,150 00  
Miscellaneous Expenditure.....56,432 50  
Total.....\$100,432 25

The net increase over 1887 is therefore \$8,116.21.  
The estimates on capital account do not take into account the proposed expenditure on the new Parliament buildings.  
Under agriculture the vote for the Agricultural and Arts Association is reduced from \$10,000 to \$4,700.  
The Public Accounts for 1887, which were also laid on the table, show total receipts—taking in all the extraordinary items, such as timber sale, sale of annuities, disposal of Dominion bonds, etc.—to be \$3,447,433, and total payments, \$3,453,372.

## RAISING THE EARLY BROILERS.

The most essential thing with young chicks is warmth. Broilers bring good prices when they reach the market early, and no one can afford to lose them. In winter the young chicks require much attention, but it is the extra care required that renders them saleable at good prices, and as soon as they are hatched, creditable must not neglect them. The hen must be kept in a dry, warm place, and the nest must be allowed to room with her brood at this season. She must be so situated that every chicken can go under her wings whenever it desires, as a few minutes exposure to severe cold will surely prove fatal, sooner or later.  
Never feed chicks during the first twenty-four hours after hatching, as the food stimulates the digestive organs, and is a benefit; as nature makes provision for it. Even thirty-six hours is too long a fast. It is so with the hen, and she should be fed oatmeal. Feed this for only one day as the eggs cause bowel disease, if continued. When the chick is two or three days old, it may receive bread soaked in milk, cold, and has been cooked, finely chopped meat, chopped onions, and a regular food composed of equal parts of ground oats, corn meal, and shorts, with a little salt as seasoning; the mixture to be cooked and crumbled for them. Do not attempt to raise chicks on corn meal, either cooked or raw, for they will not thrive upon it alone, unless with very rapid food. The young of all birds feather very early from the throat, and the chicks are no exception; but as the parent birds are given animal or insect food, the chicken should have a share also, at least three or four times a week, and a large quantity of gravel, ground shells, and bone meal should be kept within their reach all the time, and as soon as wheat can be eaten it should be substituted for the screenings. As dampness is fatal to chickens, the drinking water must be given that the chicken can get portion of its body wet, and it should be kept growing from the start.—*American Agriculturist.*

## THE ORCHARD IN WINTER.

Written especially for THE AGRICULTURAL HOME.  
The orchard is, or should be, the most valuable part of the farm. It is not only for fruit for domestic use or the market that it is so valuable, but a large quantity of the fruit may be used with much benefit for feeding stock. For this purpose alone an orchard will easily yield an good interest as can be got from any secure investment on \$200 or \$300 an acre. Hence an orchard should be most carefully tended and fed, as much as any other crop of a valuable kind. And the winter season calls for care and labor among the trees more than at any other, for there are many dangers to be avoided and many needs to be supplied.  
Pruning may be done at any time now. In doing this work it is better to do too little than to do too much, it is easier to cut away any surplus later than to put a limb back again. When one is going to prune trees a careful study should be made of the tree, which should be taken up first. When this is done another examination will show what else needs to be cut away, and by going through the work in this way one will generally escape serious mistakes, and the small ones will teach valuable lessons.  
In examining the eggs of injurious insects should be looked for and removed. The test caterpillar's eggs will be found on the small twigs near a fork. They appear as a kind of dark cone, and when gathered and covered with a glistening gummy coating. The most injurious of all orchard pests, the codling moth, is found in crevices of the bark in its larva or pupa form, the oyster-shell bark louse, another pest, is found on the smaller twigs glued to the bark. All these should be removed and destroyed. A coat of lime wash will remove the sun-bark and prevent sun scald, and if a little carbolic acid is mixed with it, it will save the tree from the attacks of rabbits and mice. When deep snow covers the ground these pests are mostly to be feared, and are to be carefully guarded against by tramping the snow firmly about the stems. Where the snow has not yet prevented it baits may be left out for the mice. A paste of corn meal and lard with any kind of a common rat poison placed at the bottom of 12 inch auger hole bored in small blocks of wood makes the safest bait for these small vermin. Two or three should be left in places about the orchard and covered with a sheet of straw or corn stalks, under which the mice will harbor, and in this way the tree will be saved.  
It is now an excellent time to top-dress the land about the trees. They deserve this care and expenditure. But the manure should never be heaped about the stems. This is not only useless but it is injurious to the trees, as it makes a harbor for vermin and attracts the insects which do all the mischief. The bark which is frozen by a succeeding cold spell and killed. Many trees are destroyed this way, the bark turns black and loosening from the wood causes the death of the tree the next summer. The feeding roots spread in the ground, at least as far as the branches do, and the manure should be spread evenly around the tree and never be thrown in a heap close to it. For the purpose of a mulch, too, there should be done, because much is said to protect the finer roots, which are several feet from the body of the tree.  
The shell-bark lice are now busy sucking the sap from the tender bark of the small branches, and thus exhausting the trees of the substance which should now be healing new wood. It is therefore necessary to destroy these parasites. This is done by spraying the trees with a strong solution of hot lime wash or with a solution of concentrated lime, by which the protecting shell is dissolved and the insect under it perishes. When all these things are done there will still be need to keep an eye upon the orchard and see that nothing more needs to be done.

## FIRST CLASS FARM FOR SALE.

The trustees of the estate of the late Joseph A. McNeil, will offer for sale by public auction on Thursday, March 1st, 1888, the farm comprising 150 acres of land and composed of lot 26 in the 1st concession of the Township of Tyendinaga, south of the line between the 1st and 2nd concessions, and the south east quarter of lot 26 in the south quarter of the 1st concession of the Township of Tyendinaga, containing 30 acres.  
The sale will take place on the premises at 2 o'clock in the afternoon.  
There are about 12 acres of wood and 20 acres of meadow land, the balance of the farm being in a first class state of cultivation, summer fallowed and laid ploughed ready for crop.  
On the farm are a frame house, two frame barns, drive house and all other necessary farm buildings, which are in an excellent state of repair.  
The farm, which is situated in a good neighborhood, on the gravel road between Belleville and Napanee, about 9 miles from Belleville, and 15 miles from Belleville, is well watered and adapted for grain raising or dairy purposes.  
Possession will be given on or before the 15th March next.  
Terms and conditions made known at the time of sale, or by applying to the undersigned.  
Dated February 8th, 1888.

## A LETTER FROM QUEBEC.

(Translated from the French.)

GENTLEMEN, — I have deferred writing the letter to testify to the benefits derived from the use of your SIMON'S EXHAUST. It has done wonders among all the people who have used it about here.  
I can certify that in every case where I have used it upon myself I have been very well satisfied.  
Mr. N. Mooney, of St. Sylvester, had a bad leg which was said to be incurable. I told him to use Simon's Liniment, and it has effected a complete cure in a very short time. His neighbor, Mr. John Delvin, having received a serious cut on his leg, Mr. Mooney took him the Liniment, and having used it, found himself completely cured.  
I have been assured of the cures of these people, and the remedy having become known, it has created quite a demand, people coming as far as 35 miles to procure it for themselves.  
Mr. Wm. Bennett, of St. Ferdinand, has had it some time for himself, and he has since taught it for his friends, who suffer from Rheumatism, and they have all been well satisfied.  
I have never known any medicine to have had such good results about here as Simon's Liniment.  
Hoping that it will prove as satisfactory elsewhere.  
I am, yours truly,  
DAMASE PAGEOT, Merchant.

As will be seen by advt the trustees of the estate of the late Joseph A. McNeil will sell by auction on Thursday, March 1st, the farm of 120 acres, lot 20, on the 1st con. of Tyendinaga. This is a splendid opportunity to purchase a very desirable property.

Rathbun's Seed Catalogue, for the season of 1888, is out, and it is a creditable production. It is indicative (1) of the extent of Mr. W. C. B. Rathbun's operations at the Bay View Road and (2) of the excellent printing which is now turned out of the TRIBUNE office, Deseronto. The catalogue has a wide circulation.—Kingston Whig.

We are indebted to Rev. J. O. Mallory, of Galesburg, Ill., for a copy of the Morris Herald, containing 63 pages, giving a sketch of Morris and surrounding towns, with illustrations. They are public spirited communities in the western states who love their cities and make them attractive for strangers.

Remember that this evening is the date of Mr. Douglas' Social. Tickets are now sold but an admission fee of ten cents will be charged at the door. A pleasant time is sure to be enjoyed. Addresses, readings, music and social dancing will follow the evening of pure unalloyed pleasure. Do not fail to extend a liberal patronage.

The Presbyterian Congregation of Shannville held a concert and social entertainment in the Masonic Hall, Shannville, next Thursday evening, Feb. 23rd inst. The committee have secured the services of the best talent in the lay district, and they are assured of a very large patronage. Tickets, 25c, children, 15c.

The Canadian Pacific Railway exhibition car containing samples of the products of Manitoba, and the North West Territories, and British Columbia, will be at Deseronto, on Monday, Feb. 20th, from 10:05 a.m. to 4:45 p.m. Every person in the district should make it a point to inspect this exhibit, as it will afford much material for instruction and entertainment.

The meeting of the Young Peoples' Association of the Church of the Redeemer held last Friday night was very successful. The readings were from Dickens and they were excellently rendered. There were some good musical selections, including a piano solo by Master Fred Sims which was quite creditable. At the regular meeting next Friday evening Mr. E. W. Rathbun will deliver an address.

The registration of births and deaths in municipalities is much neglected, notwithstanding that those interested are open to punishment. The Registrar General has issued instructions to assessors for this year to make inquiry regarding births and deaths in the family of the party being assessed, and if any have not been registered, to return such on his roll. Should the clerk parties who are required to make the registrations to do so without delay, and in case of their neglect, return the same against them, in accordance with Sec. 28 of the Registration Act.

The Cyclorama, representing the battle of Sedan, is one of the great attractions in Toronto at present. It cost \$75,000, the entire scene being placed on canvas 50 feet from top to bottom and over 400 feet in length. To any of our citizens visiting the city we would especially recommend this exhibition, but not only interesting and instructive, but one of the most highly artistic and delightful by the thousands have learned with pleasure that the Cyclorama Company and Grand Trunk are uniting on a grand excursion for the public to Toronto giving all the pleasure of the Cyclorama, to be seen at a great chance, at a nominal rate, to see this great exhibition. Excursion is to be on Feb. 24th and 25th, as it includes all stations west of Kingston. No doubt many from this locality will join this excursion. Tickets only \$2.50 from Belleville, or \$3.00 from Napanee. \$2.75, we suppose, from Deseronto. Jctn, good for two days, and including the Cyclorama.

On Monday a spark from one of the mill chimneys set fire to Mr. Wm. Waterbury's house, but by the active exertions of neighbors it was quenched before very serious damage was done.

One of the most pleasant social parties of the season was held in Frank Clement's new residence, Thomas street, on the evening of Wednesday, 8th inst. The large party present thoroughly enjoyed themselves.

The cost of building a bridge between Deseronto and Sophiasburgh would never be missed out of Mowat's surplus. How would it do for the Deseronto and Sophiasburgh town councils to ask for its appropriation?

Inspector Adams was in town the other day looking over the boilers, &c., of the Deseronto Navigation Company to see if anything was to be repaired or replaced (necessitated necessary before) the opening of navigation.

Mr. Maurice W. Britton conducted the services in St. Mark's Church last Sunday morning in a manner most acceptable to the large congregation present on the occasion. In the evening he read the services and Rev. A. Gen. of Belleville preached the sermon.

The local legislature has got down to business. The Treasurer having made his financial statement on Tuesday. It is the most stridently debated matter as to whether receipts from crown lands should be credited to capital account or to annual expenditure.

The speaker on Monday in the House of Commons said the only breach of privilege committed in connection with the arrests of Irish members was the arrest of Patrick O'Brien, the late Mr. Gilhooly.

A motion to refer Mr. O'Brien's case to the Committee on Privileges was rejected.

The idea of a farmers' institute for East Hastings has met with much favor from those interested. A meeting for discussing the matter should be held forthwith at Roslin, Read, or some central point of the riding.

The annual meeting of the different agricultural societies in the riding might very properly convene such a meeting after due notice was given.

The pitch poles on the various leading roads of the district are something fearful this winter. They are a disgrace to the road authorities. The local government should make it a municipal act so as to provide a remedy for their bad roads. In Quebec the authorities succeed in having all pitch poles on public roads removed. Ontario should not be behind Quebec in these matters.

The weather continues to keep up its reputation for severity and in future years the winter of 1888 will be looked back upon as one of the old-fashioned kind. On Friday morning last the mercury sank to 22° below zero. On Tuesday the January whiff was supposed to have arrived, there being some rain, but the wind soon veered to the north, yesterday morning the thermometer indicated 19° below zero.

The Mechanics' Institute Concert next Tuesday evening. Tickets 25c.

The annual meeting of the Reform Association of Kingston was held at Canifon on Tuesday. The usual business was transacted, old officers re-elected, and committees struck for the different polling places in the riding. Mr. S. B. Burdett, M.P., though in ill health, delivered a address which was well received. Votes of thanks were tendered to Mr. Burdett and the officers of the Association for their valuable services in the Reform interest.

The Institute Concert in the White Church of Kingston was a great success. The gentleman appointed to make arrangements have succeeded beyond their expectations and a prepared programme which bids fair to excel any other of the kind of public amusement offered in Deseronto this season.

Considering the worthiness of the object to which the proceeds are devoted, and the purchase of books for the library, and remembering the great display of talent which is to take part, trust the people of Deseronto will show their appreciation of the effort that has been made to provide in a really enjoyable evening, by turning out in great numbers and filling the White Church.

During the progress of a recent social party an effort was made by some local wags to sully carry off the good things in the bar. The waiter was secured and an entrance attempted from the outside, but, alas! the window was nailed down. When the waiter had got a good look at the party who carried off the hickory nuts.

Bo in your seats early next Tuesday evening. Do not annoy the audience by coming in late.

On Sunday Mrs. Taylor, of Gananoque, mother of Mr. George Taylor, M. P., committed suicide with a carving knife, while temporarily insane. The deed was committed in a barn in the rear of her residence, while the family were at church. She was seventy years of age, and since the demise of her husband her mind has been affected.

Operations are proceeding, briskly in the Deseronto shipyard this winter, and Sept. Evans has, as usual, his hands full. The shipyard is receiving new decks, rail, &c., and is being generally overhauled. Both the Resolute and Reliance have had their top sides recaulked. The engines of the Clola are now being rapidly put into place. The columns have been erected and cylinders and air pumps are about to be lowered into place. The other quarters have been finished as far as the joiner work is concerned and they are now in the painters' hands. The shipyard is doing over all the stores of Mr. DelBrenelle. The dining room in the ship part is very nearly completed and will show up fine. When the machinery is lowered into the hold, other joiner work will be pushed on as rapidly as possible.

The able supervision of Mr. Capt. W. H. Mason and staff all the Rathbun Company's vessels have been thoroughly brined and salted. Capt. Gowan has refitted the gunboat Puritan into a lake tug-barge to run as a consort of the Resolute. He has also seen his re-fitting the rigging of the Clola and attending to the rigging of the other vessels as well as the whole wire cable system of the Rathbun Company. Engineer Wilson is being going over all the stores of the Deseronto Navigation Company examining engines and other machinery and making good all defects. Engineer Wilson is in charge of the Southern Belle now in ordinary. Wm. Wilson is now getting out wood in Tyendinaga for the ship yard and drawing it up the river at Shannville.

On Tuesday, Mr. Harry W. Woodall of Quinte Lodge, A.O.U.W., left for Hamilton to attend the meeting of the grand lodge as representative from the Limestone lodge No. 91. The growth of this organization is unexampled in the history of assessment benevolent societies. The membership under control of the Supreme lodge numbers 200,000, and pays annually to the heirs of deceased members over three and one-half million of dollars. The report of the grand recorder for Ontario shows that, during the year there has been 2,518 applications for membership, and that there has been a net increase in membership of 2,120. Fourteen assessments have been paid, amounting to \$178,000. There are now 14,000 members in good standing, and average assessment for an insurance of \$2,000 has been \$13.50 per year since 1880 when the Ontario grand lodge was formed. There are 283 lodges in good standing in the jurisdiction of this grand lodge.

## SPRING

# CAMPAIGN!

It will not be many weeks before you will be buying what we call

## SPRING GOODS!

We are going to tell you about our large importations, so that you may not make your purchases before making an inspection of our goods. Remember that at any time we will consider it a pleasure to show you our goods, and will assure you of courteous, obliging treatment.

## IN DRESS GOODS

As usual we are prepared to lead the trade. This is one of our most important departments, and one which receives a large amount of care and attention. Importing direct from the old world, we are in a position to give our customers the benefit of the middle-man's profit, and we are also in a position to give them a class of goods which cannot be procured from other houses. In dress trimmings we have some especially fine goods. If you buy a Dress from us you may rest assured that you will be able to get a full line of Dress Trimming to match. Miss ALISON still presides over the manufacturing department and guarantees satisfaction in each and every case.

**EMBROIDERIES AND LACE**

Articles for every day use. We have some beautiful goods at beautifully low prices. Some people say such and such goods are so low they will likely take the place of Prints. It is not so. As long as manufacturers are disposed to manufacture the people will buy Prints.

We have secured a nice lot of these goods in many cases at a bargain, and are determined to give you the benefit. Don't wait till your neighbor gets all the choicest patterns. Every careful housewife studies the qualities and prices of St. Looms and Cottons. We think we can do better by you in these lines than any one else. You can't tell unless you examine them. We have the goods here now, you do your part and come and examine them before you buy.

**IN SHIRTINGS**

Our stock is equal to the wants of any one, we care not who they are. We can give you Shirtings as low as 6c. per yard, but we do not guarantee these goods. At 10c, 11c, 12c, 14c, and 15c. we have some lovely goods in which we can guarantee the color and material. Cottonades and Ducks should come in for a fair share of attention.

We are proud of our Staple Department all the way through. It should be an interesting stop for purchasers during the coming season.

A good part of our Spring Goods are piled on our counters. For what reason? Because we have not room for them on our shelves. The winter season is not past yet, and we have a lot of winter goods which must be sold in a short time. We will not ask you to allow us a profit. Simply give us what the goods cost and you can have them. In many cases you can have them for less than cost. We have only a little of that can now flame at 18c. left, but you can now have it at 17c. A line of medium weight shirts and drawers which were \$1.50 now 95c. All wool shirts which were 65c. now 50c.

## SPECIAL LINES.

We always have some specially attractive lines of goods that are not to be had elsewhere at the prices.

### LINE NO. 1.

which we have just opened is a lot of Bleached and Cream Table Linens, hand loom woven goods, without dressing, at very low prices. If you want a good wearing Table Linen always buy the Cream, loom finish.

### LOT NO. 2

Is a grand lot of nearly 3,000 yards of Print, to be sold at 10 cents, same as usually sold at 12½ cents.

### LOT NO. 3

Is a lot of Ladies' and Children's Cotton Hosiery, black and colored, at prices never before heard of, from 5 cents a pair.

### LOT NO. 4

Is a big quantity of Shirtings, Gingham, etc., at lower prices than elsewhere.

### LOT NO. 5

Is a lot of Hickory Cottonades, the best wearing goods in the market, at 5 cts a yard less than regular prices.

### LOT NO. 6

Is a lot of Grey and White Cottons, at less prices for quality than can be had elsewhere.

We make these statements because we know these goods were bought out of the usual way, and much less than regular prices, and that these bargains were confined to ourselves in this section.

A lot of new Tweeds are now out, and they are splendid value. We have opened out our new Embroideries in narrow widths, and medium width, as well as Allovers, Flouncing and Skirting widths, and in both Swiss and Canbrie muslins.

Our new Scrims for Curtains are now in, as well as Laces to match them.

Our new Oriental Laces are in.

Our new Tweeds, Linens and Towels are in.

We pride ourselves on the fact that our importations will excel and surpass in point of variety, quality and value anything ever shown here.

## TERRIBLE TRAGEDY.

About 4 p. m. on Tuesday the town was thrown into a state of great excitement by the receipt of a message from Napanee stating that Peter Jondreau of the place had shot his wife. The excitement was intensified by the arrival of the officers of the law in pursuit of the murderer, and subsequently wrought up to fever heat when it was learned that the desperate man had consumed the tragedy by taking his own life. The facts connected with this sad affair, are, as far as we can learn, about as follows:—Jondreau, or as the name is generally spelled here, Shandraw, who would have been 32 years of age in August, was married in May last to Laella, daughter of Mr. Chas. McCullough, of Napanee, her age being about 20 years. For a time they lived together, it is said, quite happily, but of late their married life for various reasons became anything but pleasant. About three weeks ago they removed to Napanee where the husband was engaged at work on the new goalk to settle. Their differences continued to become more serious and his wife refused to live with him any longer. On Sunday Shandraw got a lively rig and drove his wife up to Deseronto, and it is said they quarrelled all the way. He left her at his father's house, but while he was putting up the rig, she slipped away to her married sister's house in the east end of the town. He proceeded to look after her and on the way met his father-in-law with whom he had an altercation which ended in blow. Going on to the house he found his wife and urged her to return, but both she and her sister were so excited, and trouble being feared, Chief Gunyon was sent for who persuaded Shandraw to go back and settle. He was at some other time. He consented to do so and went to his father's house. He evidently brooded over the matter, though not saying very much about it, but it was noticed that he was labouring under intense mental excitement. On Tuesday morning he must have decided either to bring back his wife or failing that to end their disputes by taking her life and his own. In the morning he borrowed a 32 calibre Remington five shooter from a young man named Moses alleging that he wished to kill a dog, and purchased a box of cartridge at the Big Store. After dinner he told his mother on going out to tell his father that if he was not home by 6:30 p. m. he would come home a corpse, a foolish and idle threat as she considered at the time. He then endeavored to get a rig at Marigan's livery, but Mr. Marigan could not just then oblige him. He came back a little after and taking the hostler's side contentiously showed him the revolver and told him he intended to shoot his wife and kill himself. This as before was considered as an idle threat. He then started to go back to Napanee. On the way he shot a dog belonging to Jas. Hearnson on the Napanee road. The stage overtaking him he took passage in it, and reaching Napanee he got out at this end of the town and proceeded directly to his father-in-law's residence near the station. He inquired for Mr. McCullough, but found he was not in. He then walked inside, where there were only his wife, her fourteen year old sister and a young man named Lasher. He addressed his wife as "Laella" and you not come home and live with me?" She replied she would not. He then offered to get a horse in Napanee and reside there if she would consent to live with him. She refused, saying that he had abused her long enough, that he had deceived her, and that she would live with her father. He then exclaimed "You must live with me, or we must part in death" and drawing the revolver fired a shot at his wife who was then walking away from him. The bullet struck her in the left shoulder. She fell forward on her face, and he fired again, this time without striking her. Her sister implored him to desist when he turned as if to threaten her. He then fired another shot which also missed his victim. He then rushed from the house.

In a few minutes word was conveyed to the police who immediately started in pursuit of their man. A telegram was sent to Deseronto to Chief Gunyon asking him to be on his way to Deseronto. The Chief immediately drove down as far as Mr. Aylsworth's and waited there. Chief Allen, of Napanee, Mr. Scott, of the River, and others drove up the ice to Deseronto, but without seeing him. A consultation was held and it was agreed that Chief Gunyon should drive down the slash road, while Chief Allen should drive over the bay to the Fredericksburg side. The latter was informed when he got to the other side that Shandraw had a few minutes before shot himself through the heart and that his body was by the way side.

It appears that after shooting his wife Shandraw proceeded to the ice where he persuaded a man who was drawing hay from the marsh to give him a drive, urging him to drive fast as he had a "couple of bottles" which the boys in Napanee were wishing to get from him. He got off when the marsh was reached, and proceeded on foot or on passing along to Mr. Peter Shattreau's house on the Fredericksburg side of the bay nearly opposite Deseronto. Mr. Shattreau was his uncle, and entering the house he informed Mrs. Shattreau that he had killed his wife and that he was now going to kill himself. He told her, "If, however, continued to reiterate his intention of killing himself, and asked her to let his people know, and be sure to tell the Walmisley boys to go to the sand pit a little distance off and they would find his corpse which they were to carry to Deseronto. He went

outside, fired a shot in the air, and then knelt down a few yards from the house and in a loud voice prayed his Maker to forgive him for the crime already perpetrated and for the terrible deed he was about to commit. To Nicholas Gault who was passing he made the request that he would carry his body to Deseronto. Gault drove to a little distance from the house and placed the body in his breast and sent a bullet through his heart, expiring immediately, about 5:30 p. m.

Thus ended the fearful tragedy of the day. The body was shortly afterwards conveyed to Deseronto. In the meantime medical assistance was summoned for the injured woman. It was for some time thought that she would not recover from the effects of the wound, but yesterday she was much easier, and it is now thought that she is out of danger and her speedy recovery is expected. The event naturally made a great commotion in Napanee, Deseronto and vicinity where all the parties are well known. Much sympathy is felt for the parents and families of the unhappy victims of the shocking tragedy.

REMEMBER THE FAMILY ANNI-  
VERSARIES.

As a people, we pay far too little attention to birthdays and other family anniversaries. Too much cannot be done to make home attractive, so that our boys and girls will prefer it to all other places. "This has been the nicest day I ever knew," said a boy to his mother one evening. "The birds have all been singing, and the sun shone every minute, and everything has been so lovely just for your birthday, mamma, and I'm so glad," and he emphasized his gladness with a hearty hug and kiss. For weeks the boy had been looking forward to this day, planning and making a little birthday gift as a surprise, and when the time came, his whole mind was given to making his mother happy. "Just it's so much trouble to celebrate birthdays," complain some so often. "Yes, it is some trouble; but how can we keep our children contented and happy at home without taking trouble? And no mother regrets the trouble when she sees her children regarding their home as the very best place in the world to live. Try to do it does not 'pay' in the enjoyment of the whole family. Let no one be forgotten, from father to baby, and try to have each one interested in all the others, planning, if possible, some little birthday gift. No matter how simple or trifling it may be, the love and thoughtfulness which go with it will make it precious. American Agriculturist for March.

## GREEN POINT.

From Our Own Correspondent.

Mr. Alfred Carlie, who has been prospecting in the western States for the last six months, has returned, bringing with him a letter from his wife, who has been very ill. He says that he never knew his wife so ill as she is now. He has been a great sufferer for a long time, died on Sunday. We have not learned where the funeral will take place.

Mr. & Mrs. O. Burlington and Mr. & Mrs. B. Johnson, of Picton, were the guests of Mr. A. Vandusen, Saturday night, and Sunday. Mr. & Mrs. Frank Terwilliger, of Picton, are also the guests of Mr. Vandusen. The family of Mrs. Kirtan, who were all down with the measles are recovering. Mrs. George Rowe is quite ill, the doctor being in attendance. Mr. Jay Reynolds and family are talking of going to Dakota.

## MARYSVILLE.

From Our Own Correspondent.

Mr. E. McBurn has gone to Ottawa to resume his position as sessional clerk during the coming session of parliament. Mr. Thos. Trimble, wife, and Mr. R. Trimble and wife, of Nanapan, spent Sunday afternoon last at the home of Mr. J. Martin.

Our local fancier, Mr. E. O. P. show a splendid showing at the M. T. P. at Ottawa last week. He took seven 1st, 2nd, 2nd, 2nd, and several special prizes, and that among a collection of over six hundred of the best birds in Ontario and Quebec. T. Stapleton has been appointed a local agent for the Mutual Reserve Fund Life Association for this district, and will be glad to receive applications for membership and supply any information required. The principles of this Association, have only to be understood to be appreciated. It is rapidly coming to the front as a cheap and reliable insurance, and is just suited for those whose means are limited, and who were deterred from insuring, by the high rates charged by old companies.

## LINE LAKE.

From Our Own Correspondent.

Messrs. Kinnet and Anderson have completed cutting and hauling fence rails and have taken their departure for Berlin.

Mr. Demorey still continues to haul logs to the Rathbun Company's mill.

Mr. Nathan Dunn is busy with a gang of men cutting and hauling hardwood logs, bought of Mr. Latimer and delivering same at the Rathbun Company's mill.

Mr. Benjamin's men returned from Yarker to cut the iron wood on Mr. Wells' place. They again take their departure for Yarker to-morrow.

The Rathbun Company mill is running steady and the lumber is being delivered in Tamworth.

Your correspondent was surprised to see a team of mules with 1000 lbs. of lumber on the road to Tamworth and which was delivered there. It was I told that 800 ft. was all a team could take through.

Mr. Latimer's mill is closed down and the single machine there. The circular saw is still there.

Mr. E. Williams bound not to be outdone by a team of mules loaded 1300 ft. of lumber and delivered same at Tamworth. Next.

## TYENDINAGA RESERVE.

From Our Own Correspondent.

Our Barber who resides at the west end of the Reserve viewed the moon's eclipse the other evening through a piece of smoked glass and decided that it was elegant.

The long talk of marriage of Mrs. Emma Powles to the Rev. Mr. Wills' place, Mr. Simmons, was consummated on Tuesday evening last at the Mohawk Parsonage.

Mrs. Anderson, of the Mohawk Parsonage, is still confined to her bed.

At a meeting of the Directors of our farm organization on the 16th inst. it was decided to call it the Bay of Quinte Mohawk Agricultural Society. The vote for holding the annual fair has not yet been agreed upon but a general meeting for that and other purposes has been convened for the 25th inst.

Persons from the rear of the Township are delivering cedar posts for fencing purposes at various points on the Reserve.

The Reverend Mr. Forneri of Adolphstown, preached at All Saints Church on Sunday afternoon. His sermon was appropriate and much appreciated. It is seldom that our little church has three clergymen officiating at one service, for besides the Rev. Mr. Forneri and the Incumbent the Rev. A. L. Green assisted.

## MILLTOWN.

From Our Own Correspondent.

Some writers speak of the millennium being close at hand; it cannot be so for the evil one seems to have full possession yet. Last Saturday night some miscreant tried to burn the driving house belonging to F. D. Appleby. They had placed a pile of one of the stails but luckily the fire died out without doing any damage.

Mr. I. D. Appleby has gone to New York. If he is suited with the place he thinks he will send for his family; he is missed very much here.

Mr. John Reid has gone to Prince Edward to carry on butchering; news is abroad of an early marriage.

Mrs. William Baragwan was taken suddenly ill last week. Dr. McLaren was called in and under his treatment, we are glad to say, she is fast recovering.

Miss Sara McCruden, of Belleville, has been visiting her friend, DeMotte Appleby, David Huxley's family, from Odessa, visited friends in this place last week. Mr. Pennick and his daughter spent a few days with friends in Concession.

Mr. Johnston, the School Inspector, visited our school last week. He seemed well pleased with the progress of the school in general.

## READ.

From Our Own Correspondent.

"Animal Denim" feels much obliged to his many friends in Marysville, who take so great an interest in his affairs. He begs to inform them that he always paddles his

own canoe and intends to do so in future even if he should disturb their equanimity. We had hoped to chronicle some interesting event but it appears that they are relegated to the far distant future.

Mrs. Walsh has been visiting her daughter Mrs. Keegan, Cleveland, Ohio.

Mrs. Egan mother of Mr. Patrick Egan and Mr. John Egan retired to bed on Monday evening 17th inst. in her usual health and was found dead in her bed the next morning. The deceased lady was a native of the County of Clare, Ireland, and was well known through this section of Country. She was 73 years of age and at the time of her death was on a visit with her son John at the funeral took place on the 16th inst. at St. Charles' Cemetery.

We thank Mr. James K. Walsh of Oshkosh, Wisconsin, for the copy of the "Journal of the Territorial Papers Received."

We are glad to learn that Mr. & Mrs. Walsh are comfortably settled and enjoy their Western Home.

Mr. James Walsh who is sojourning in Dakota, likes the country very much. We would not be surprised if the Far West rolled us again of some of our staidest young men.

The Tribune as usual is a welcome visitor in many a home in the far west and reads news and other local news anxiously looked for every week.

There is rather a dearth of news at present and we find it rather a difficult matter sometimes to make up our usual correspondence.

A court-martial is about being held by the Mulligan Guards on one of their officers the result of which we shall duly notice.

## KINGSFORD.

From Our Own Correspondent.

Mr. & Mrs. W. N. Whiteman returned home by the noon train on Saturday from their wedding tour.

Mrs. Wm. McKee, of Deseronto, was visiting Mrs. Ralph Abbott last Sunday.

Miss Lyman, of Marysville, was visiting here this week.

Mr. Daniel Gleason, of Nanapan, was visiting his friends here last Sunday.

Mr. & Mrs. Wm. McKee, of Deseronto, were visiting Mrs. Adams, of Deseronto, on Sunday.

Mr. Michael Donovan and Mr. John Donovan, of Bradford, Penn., have come home to visit their mother, who has been ill for some time and is very low.

Least having commenced there is a cessation of all kinds of gaiety.

Mr. Daniel Mayhew, who has been visiting Manitoba and the Northwest for some time has returned.

The Sisters of Charity, from the House of Providence, Kingston, were visiting the residents of Kingsford during the past week and received liberal donations from the farmers.

Mr. Peter Doyle our expert and well known blacksmith, is making preparations for the spring campaign. He is an excellent workman in steel and does some of the neatest work in that line.

Mr. Doyle served for many years in the Royal Navy and is an expert at anything from a needle to an anchor.

Great excitement prevails in our usually quiet little village over the shooting of a dog. It appears that one of our citizens, anxious to try his rifle shot his neighbor's dog that bore the reputation of being a quiet and inoffensive animal.

The owner of the dog was naturally indignant and threatens to invoke the strong arm of the law. What the end of this matter may be time will tell.

## ALBERT.

From Our Own Correspondent.

I see there is war proclaimed against the poor little English sparrow. The first attack comes from one who signs himself "Anaspas." The gentleman's method would be to spread poison on plates or dishes, and place them so high that poultry could not find them. I think this plan would be an excellent one if you could place this medicine beyond the attraction of the earth, so that the poor little sparrow would fall on some other planet. I think this plan would do harm. Some of the sparrows would fall in back yards, and some would fall in pig pens, and as cats and pigs are very fond of little creatures, they would certainly eat them which would be certain death. So I think the remedy would be worse than the disease. I think it is very cruel to transport the poor, little birds from their native homes where they are free, and then treat them so harshly. Some charge the sparrow with cruelty to our native birds. But where are our native birds? All gone south, where many of our debtors go, excepting now and then a blue jay, which has about as much native blood as the Jews have.

We all know how difficult it has been to raise small fruits and a good many vegetables on account of so many insects. Our native birds seem to have so much pride and dignity about them that they will not stoop to do any low, dirty work. The sparrow certainly destroys thousands of insects. A gentleman watched two parent birds carry insects of different kinds to their young, and by actual count they brought near three hundred insects in a very little time. The greatest danger to the sparrow seems to be located in Belleville. It seems a legal case, for the owner of a farm or two in Sidney, and the sparrows have been trespassing and eating wheat, so the gentleman thinks of arming a battalion of small boys to shoot the birds. I think it would be too expensive. How very economical a lawyer can be when his own pocket is concerned, but is he not a little low down at one gully, as I have in somebody else's pocket? I consider a sparrow nothing more than a lawyer in a suit, and I think his fees are quite as light in proportion to the work he does as the larger lawyer. There is one thing certain, a sparrow cannot take cattle, barns, houses and lands all down at one gully, as I do sometimes for a very little labor. I have often seen when I have been going to the farm where the farmers have emptied their boxes in the public road, a flock of sparrows eating the foul seeds. I suppose they do not mind the foul seeds, but they do mind white people brought over the sea so much foul seed and other dirt, we ought not to be surprised at our native birds being above despising up strangers' dirt. Let the little English sparrow live until America becomes well stocked, and if they don't keep down insects and such like, there is no other bird that can. I have been waiting some time, thinking some tender-hearted and sympathetic lawyer would step forth and defend the poor, little, English sparrow

and stranger in a strange land; one that could shed a tear or two before a jury whether he felt like it or not. We have too many lawyers in this country, they try and send more merchants, mechanics and farmers. I don't think I should have mentioned a lawyer at all, if they had not pounced on the weak and helpless. Some lawyers think it is their duty to keep every one in order. A good religious lawyer once asked a minister of the gospel, if he corrected mistakes when he was preaching. The good minister told the lawyer he did not always correct mistakes. For instance, says the minister, if I was preaching and intended to say all liars should have their portion in a certain warm region, but should say all lawyers &c, I should consider the mistake so small I should let it pass. Even the sailor on the ocean has an idea of the nature of a lawyer. One of the ocean steamers there was a certain lawyer crossing the ocean on a pleasure trip and the legal gentleman called the attention of one of the sailors to an enormous great shark that was playing with some loose plank and other stuff. Of course the lawyer was anxious to know the name of the fish and wished the sailor to let him know what they called it. Well, says the sailor, I don't know what they call them on land but here we call them sealawyers. When it takes eight thousand dollars to collect eighteen thousand there is something crooked somewhere.

## TYENDINAGA COUNCIL.

Council Room, Feb. 17, 1888.

I present, William McLaren, Reeve; P. Nash, 1st Deputy Reeve; J. C. Milligan, 2nd Deputy Reeve; G. Monro and J. C. Meagher, Councillors.

# Selling off at Drewry's

New bargains opening up every day. Always buying but never at regular prices.

We always get the drop in the price or we don't buy. You know, without us telling you, that times are hard, consequently sales with the wholesale men, are slow, and they are anxious to make sale—to get cash—many are forced to sell to get cash—and so it is a great opportunity for us to buy cheap.

We buy cheap and that enables us to sell cheap. And so every day almost we are buying. First one line then another—any line so long as we get the drop in the price. This week it is

According to the Pesther Loyd, a memorandum of England's views on the Eastern question has been forwarded to Austria and Italy.

As will be seen in the report of their proceedings the Council have resolved to light the streets of Deseronto with gas, another step in advance.

The Big Store will lead the trade in Wall Paper this Spring; a splendid assortment just opened, many new and beautiful designs; call and see the Big Store.

The lecture announced to be delivered by Mr. E. W. Rathbun at the meeting of the Young People's Association this evening has been postponed for two weeks.

On Tuesday John Curtis lost the end of one of his fingers and gave Dr. Vandervoort an operation to perform, by getting his fingers pinched.

Mr. George Stewart, of the Deseronto House, has been offered some fancy figures for his trotting mare, which bids fair to make her mark in the trotting park in the near future.

At a Conservative convention held in Picton Mr. Robt. Clapp was selected as the Conservative candidate for Prince Edward for the approaching election. Mr. McCaig is also in the field having been selected at a convention of his own friends and supporters.

The members of Craig Lodge, A. F. & A. M., are preparing for a conversation to be held in their hall on the evening of Thursday, March 2nd. The brethren of the lodge are to have a reputation for pleasant affairs of this character.

A Sacred Concert and Organ Recital will be held in the Church of the Redeemer on the evening of Thursday, March 15th. Miss Howden, Miss Burdett, Mrs. Hillman and other eminent vocalists and musicians will take part on the organ.

The cause of Home Rule for Ireland has gained a succession of sweeping victories in the recent by-elections in England. Dundee, Edinburgh and Southwark have all spoken with no uncertain voice in favor of justice being extended to their Irish brethren across the channel.

The directors of the Mechanics' Institute have been enjoying a great measure of good luck during the past week. They have obtained a grant of \$25 from the council and a respectable sum from the proceeds of the late concert. A number of new mechanics were present at the concert on Tuesday evening, showing that an interest is being at last taken by the public in the Institute.

The proceedings of the Legislative Assembly have been dull and uninteresting during the past week, the attention of members being directed to such dry subjects as Irish free trade, and petty amendments to the municipal act. Yesterday the debate on the inter-provincial resolutions was commenced. It will furnish some excitement and oratory, patriotic and otherwise.

A party of boys is expected at the Marchmont Home, Belleville, about the first of March and a number of girls in May. Some of these will be for adoption by those who have no little ones of their own to take home cheerful, while others will be older and able to help with the clothes and go to school in winter. Applications are now being received by Mr. A. B. Brough-Walace, at the home, Belleville.

The text of the Fishery Treaty has been made public. While not everything that could be expected, we consider the treaty a fair settlement of the vexed questions in dispute. Canada has, of course, made concessions, but on the whole they are not of such a serious nature as were anticipated. We believe that the treaty will be ratified by the Senate of the United States and the British and Canadian Parliaments.

The aim of the Big Store has been and continues to be, that of selling Tea worth the good opinion of consumers and to scrupulously maintain the high standard of excellence in their brands. That they have succeeded in their efforts has long been a foregone conclusion, as evidenced by the enormous demand for their tea throughout this and the surrounding counties. It is manifestly to the advantage of every purchaser to buy such goods as are already firmly established as favorites by consumers, and the tea kept by this house are demanded by reason of their well known and attested qualities.

There was considerable discussion at the last Council in reference to the petitions for or against the proposed by-law in reference to liquor licenses. The number of names on the petition for the by-law was 243; on that against 299. Council have considered in addition that 27 names should be removed from the former inasmuch as they had also signed the latter petition or their names had been obtained by false representations. In addition to these he contended that 35 names should be struck off as they were not entitled to vote at municipal elections. The result of the majority of votes were against the proposed by-law. Councillor Richardson, on the other hand, said that if the 27 names were removed from the one petition they should also be removed from the other, and he further asserted that there were a great many names of persons on the second petition who were not entitled to vote in municipal elections, and that this he had still a decided majority.

New Spring Goods arriving every day at The Big Store.

Gentlemen, don't buy your spring hats until you see Kerr & Wins' stock.

A time of activity prevails at present at the Chemical Works, and there is every indication of a very busy season ahead. The mammoth new charcoal kiln is about completed, the new mill having prosecuted their work even in the most severe weather. A large number of new stills, vats and retorts have been recently put in. It is satisfactory to know that orders for the numerous products of these works are coming in on an extensive scale.

Rev. Mr. Atkinson is making considerable progress in his new parish and his work is evidently appreciated by his people. The recent concert at North Hastings and Milford realized \$119, including tickets sold on a sick sort of crazy work. Of this sum a present of \$20 was donated to Mr. Atkinson for the purchase of a new organ. The balance will be devoted to the erection of a suitable fence to be placed around the beautiful church of St. John's, Marysburg.

The Canadian Pacific Railway exhibition car arrived here on Monday morning and remained at the railway station until 5 p.m. Although the weather was unfavorable, the car was visited by large numbers of citizens and farmers who seemed to manifest great interest in the display of vegetable and mineral products of the great western territories of the Dominion. Already an increased desire for information concerning British Columbia and the territories is observable among all classes.

Happier addresses, better singing, more sprightly music, and the best of chairman were the distinguishing features of Mr. Douglas's Social last Friday evening. The audience were in good humor from the very start and none regretted being present at the meeting. Mr. W. D. McKee very capably presided, and with Rev. R. J. Craig, and a *TRIBUTE* representative delivered good addresses. Miss Bellwick contributed several musical selections and vocal solos which were very much appreciated. Miss Sophie Anderson sang very sweetly, and Mr. G. W. Wright, who was in good form, gave a solo with capital effect. Wm. Geddis contributed an excellent song, and with Principal Cole sang a duet. Mr. & Mrs. M. D. Campbell, who are visiting in Deseronto, gave valuable assistance. Mrs. Campbell giving a vocal solo in her usual good style, while an organ and violin selecting by both Mr. & Mrs. Campbell was especially worthy of praise. Principal Cole welcomed the audience with his recitation. Mrs. Douglas also addressed the meeting thanking all for their presence and assistance. The programme was extemporized during the evening and *THE TRIBUNE* must admit it was in every respect superior to what is generally presented at a social and concert, the singing and music being particularly good.

it. Henshaw then broke the ice before and managed, with, of course, Thompson's splendid services, to land in safety, though much exhausted, bringing with him the girl like-wise safely. To Henshaw's great coolness and bravery the girl owes her life. J. W. Thompson's share in saving Henshaw and the boy, indeed all that is no less commendable. Their splendid bravery deserves public recognition. We have reported the case to Captain Home of the Royal Humane Society, and meanwhile if any subscriptions be entrusted to us towards a testimonial to Henshaw and Thompson, we shall be glad to acknowledge them in the Journal. Henshaw has previously figured in several life-saving exploits.

## VILLAGE COUNCIL

Town Hall, Feb. 29th, 1888.

A meeting of the Village Council was held on the above date. Present, W. R. Aylsworth, Reeve, and Messrs. Baker, Cameron, Finch and Richardson, Councillors. The minutes of the last meeting were read and, a few amendments being made, were approved.

Several communications were read and tabled.

A petition was presented from E. W. Rathbun and 60 others praying that the Council would grant some financial assistance to the Mechanics' Institute. A petition from Geo. Field and Murray Deans and 73 others was read praying the council to limit the number of tavern licenses to four. Also a counter petition from Dalton and 299 others praying that the number remain unchanged.

Moved by Mr. Cameron, seconded by Mr. Roach, that in terms of a communication received from Brantford City Council, a petition be signed by the Reeve and Clerk praying that the Legislative Assembly repeal the law enabling municipalities to grant bonuses to manufacturers. Carried.

Moved by Mr. Richardson, seconded by Mr. Baker, that the Auditors' Report be received and adopted and that the Clerk be empowered to have 200 copies of the abstract and statement of accounts printed for distribution.

Moved by Mr. Roach, seconded by Mr. Baker, that the offer of the Deseronto Gas Works for lighting the streets at \$20 per lamp for one year, be accepted and that the Reeve and Council be authorized to locate the lamps in such places as may be suitable for the public. Carried.

Councillor Richardson asked for permission to withdraw a motion he introduced by him at the former meeting. Permission was granted on a division.

Councillor Richardson then introduced a by-law to limit the number of tavern licenses to four, and abolish all shop licenses, by-law to come into effect immediately.

Moved by Mr. Richardson, seconded by Mr. Cameron, that a grant of \$25 be made to Deseronto Mechanics' Institute. Carried.

Moved by Mr. Roach, seconded by Mr. Baker, that the Rathb
